Gerardus van der Leeuw was one of the first to attempt a rapprochement between theology and the arts, and his influence continues to be felt in what is now a

burgeoning field. Sacred and Profane is the fullest expression of his pursuit of a theological aesthetics, surveying religion's relationship to all the arts -- dance, drama, literature, painting, sculpture, architecture, and music. This edition makes this seminal work, first published in Dutch in 1932, newly available. A new foreword by Diane Apostolos-Cappadona analyzes the continuing relevance of van der Leeuw's thought. Van der Leeuw's impassioned and brilliant investigation of the relationship between the holy and the beautiful is founded upon the conviction that for too long the religious have failed to seriously contemplate the beautiful,

associating it as they do with the kingdom of sensuality and impermanence. Similarly it has been alien to literati and aesthetes to reflect upon the holy, for they choose to consider this physical world to be permanent, and therefore to be glorified through beauty alone. In truth, as van der Leeuw undertakes to show in Sacred and Profane Beauty, the holy has never been absent from the arts, and the arts have never been unresponsive to the holy. Whether one considers the Homeric epics, the dancing Sivas and Vedic poems, the sacred wall paintings of ancient Egypt, the primitive mask, or the range of sacred arts developed out of Latin and

Byzantine Christianity, primordial creation in the arts was always directed toward the symbolization and interpretation of the holy. The fact that in our day this original connection is obscured and the artistic impulse is more generally regarded as wholly individualistic and autonomous does not contradict van der Leeuw's thesis; indeed, the breakdown of the unity of the holy and the arts is central to his thesis. Van der Leeuw was the rare thinker who combined profundity of insight, grace of style, and a willingness to take daring intellectual chances. In *Sacred and Profane*, he describes each of the arts in its original unity with the religious and then analyzes its historical

disjunction and alienation. After a penetrating investigation of the structural elements within the arts which illumines a crucial dimension of the religious experience, van der Leeuw points toward the reemergence of an appropriate theological aesthetics on which a reunification of the arts could be founded.

As Ida Susser writes in reference to Belmonte's Broken

Fountain, "good ethnographies have long lives." This classic of urban anthropology, one of the most acclaimed ethnographies of recent years, offers vivid, literary descriptions of Fontana del Re, an impoverished Neapolitan neighborhood. Belmonte documents the struggles of Neapolitans surrounded by crumbling buildings and economic insecurity. He details family dynamics as well as the working of Naples's informal economy, the day-to-day struggle for economic subsistence, and the intermittent begging and thieving of the young. Taking us from the bustling, vibrant, and gritty

streets and alleyways of Naples to the kitchen tables of poor Neapolitan homes, Belmonte resists simplistic depictions of the poor. Instead, he presents subtle, compelling portraits and analyses that capture the emotional, social, and economic lives of his subjects. In addition to the continuing relevance of his insights into the effects of poverty, Belmonte's willingness to reflect on his own reactions and emotions while in the field has influenced a generation of scholars. In *The Broken Fountain*, he poignantly describes the experience of living alone in a strange urban environment and his interactions with the residents of Fontana del Re. This

edition includes a foreword by Ida Susser and an afterword by Pellegrino D'Acerno and Stanislao G. Pugliese.

I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the

song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal

finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

"It is a miracle that any one man should have observed, read, and written down so much in a single lifetime."-- Kenneth Clark Painter, sculptor, musician, scientist, architect, engineer, inventor . . . perhaps no other figure so fully embodies the Western Ideal of "Renaissance man" as Leonardo da Vinci. Leonardo was not content, however, to master an artistic technique or record the mechanics of a device; he was driven by an insatiable curiosity to understand why. His writings, interests, and musings are uniformly

characterized by an incisive, probing, questioning mind. It was with this piercing intellectual scrutiny and detailed scientific thoroughness that Leonardo undertook the study of the human body. This exceptional volume reproduces more than 1,200 of Leonardo's anatomical drawings on 215 clearly printed black-and-white plates. The drawings have been arranged in chronological sequence to display Leonardo's development and growth as an anatomist. Leonardo's text, which accompanies the drawings--sometimes explanatory, sometimes autobiographical and anecdotal--has been translated into English by the distinguished

medical professors Drs. O'Malley and Saunders. In their fascinating biographical introduction, the authors evaluate Leonardo's position in the historical development of anatomy and anatomical illustration. Each plate is accompanied by explanatory notes and an evaluation of the individual plate and an indication of its relationship to the work as a whole. While notable for their extraordinary beauty and precision, Leonardo's anatomical drawings were also far in advance of all contemporary work and scientifically the equal of anything that appeared well into the seventeenth century. Unlike most of his predecessors and

contemporaries, Leonardo took nothing on trust and had faith only in his own observations and experiments. In anatomy, as in his other investigations, Leonardo's great distinction is the truly scientific nature of his methods. Herein then are over 1,200 of Leonardo's anatomical illustrations organized into eight major areas of study: Osteological System, Myological System, Comparative Anatomy, Nervous System, Respiratory System, Alimentary System, Genito-Urinary System, and Embryology. Artists, illustrators, physicians, students, teachers, scientists, and appreciators of Leonardo's extraordinary genius will find in these 1,200

drawings the perfect union of art and science. Carefully detailed and accurate in their data, beautiful and vibrant in their technique, they remain today--nearly five centuries later--the finest anatomical drawings ever made.

Werewolf: The Apocalypse is about anger over the loss of what the shapeshifting Garou hold dearest: Gaia, the Earth itself. Corruption from without and within has caused the destruction not only of the Garou's environment, but also of their families, friends and culture, which extends in an unbroken line to the

very dawn of life. No matter how righteously the Garou hold themselves, no matter how they prey on their destroyers, the corruption spreads. Now the time for reconciliation is past. This grave insult against Gaia can end in only one way: blood, betrayal... and rage. Combines Caerns: Places of Power and Rage Across Russia.

Professor Zacharias Tane Fomum never claimed to be a self-made man. Self-made people may end up as spiritual men, but not spiritual leaders. Spiritual leaders are a concatenation of kaleidoscopic influences. When God determines to use a man for His glory and

for the advance of His kingdom, He moulds him through manifold human, angelic, spiritual and normal life influences. He finally becomes an ordinary man with an extraordinary life. "FROM HIS LIPS: THE INFLUENCES THAT MOULDED HIM" delves into the plethora of influences that moulded Him into the spiritual leader of his generation. From among his own people, he was influenced by his own family, parents, siblings, teachers, university lecturers and colleagues. He was influenced constructively by people across the board from every culture. From the Western World, there were such influential figures in his life like

Professor Landor, John Wesley, Charles Finney and Charles Spurgeon, just to name a few. Watchman Nee from the Oriental World was like a spiritual father and main influence to him. He read many of his books from cover to cover on his knees. African and academic influences such as Professor Sundengam, Ruth Sengat Kouo and Bishop Festo Kivengere, among a host of others, made him a citizen of heaven in the world. With such an equilibrium of diverse cultural and spiritual influences, the Lord used him to speak to every manner of culture without fear or favour and without mincing words. These human and printed page influences moulded him and, he, in turn, was used by

the Lord to mould and transform the lives of multitudes around the world. Read this book and that transformation will be yours

Rage Across the World
Cambridge University Press

Those familiar with the author's previous forays into the world of Hong Kong Cinema and Spaghetti Westerns will know pretty much what to expect here, and it falls far short of any dictionary definition of "essential". Short, cursory capsule reviews, short on insight, style and cultural context and high on typographical and factual errors, accompanied by an arbitrary star rating from one to four. The main virtue of Weisser's self-published book is its

rigorously completist approach. Even though it states that it is not the aim to include every single film from Japan ever released, with separate editions available for a more complete look at Horror, Science Fiction and Fantasy, and Sex Films, and one planned for animation ("please check our subsequent books" [sic], Weisser writes in the intro for the fourth edition), this initial volume certainly covers a lot of films and does give quite a good indication as to how much is actually out there.

"Some 55 scholars, mostly Japanese but with a considerable number from the US and Europe, write about the ethnicity, theories of origin,

history, economies, art, religious beliefs, mythology, and other aspects of the culture of the Ainu, the indigenous people of Japan, now principally found in Hokkaido and smaller far northern islands. Hundreds of photographs and paintings, mostly in excellent quality color, show a wide variety of Ainu people, as well as clothing, jewelry, and various artifacts."-- "Choice". "The most in-depth treatise available on Ainu prehistory, material culture, and ethnohistory." - "Library Journal".-- Amazon.com (2001 ed, book description). Tropic of Orange Alfred a Knopf Incorporated This book traces the psychology, history and theory of the compulsion to collect,

focusing not just on the normative collections of the Western canon, but also on collections that reflect a fascination with the "Other" and the marginal - the ephemeral, exotic, or just plain curious. There are essays on the Neoclassical architect Sir John Soane, Sigmund Freud and Kurt Schwitters, one of the masters of collage. Others examine imperialist encounters with remote cultures - the conquistadors in America in the sixteenth century, and the British in the Pacific in the eighteenth - and the more recent collectors of popular culture, be they of Swatch watches, Elvis Presley memorabilia or of packaging and

advertising. With essays by Jean Baudrillard, Thomas DaCosta Kaufmann, Nicholas Thomas, Mieke Bal, John Forrester, John Windsor, Naomi Schor, Susan Stewart, Anthony Alan Shelton, John Elsner, Roger Cardinal and an interview with Robert Opie.

The Copyeditor's Workbook Hardwired Japan's film industry has gone through dramatic changes in recent decades, as international consumer forces and transnational talent have brought unprecedented engagement with global trends. With careful research and also unique first-person observations drawn from years of working within the international

industry of Japanese film, the author aims to examine how different generations of Japanese filmmakers engaged and interacted with the structural opportunities and limitations posed by external forces, and how their subjectivity has been shaped by their transnational experiences and has changed as a result. Having been through the globalization of the last part of the twentieth century, are Japanese themselves and overseas consumers of Japanese culture really becoming more cosmopolitan? If so, what does it mean for Japan's national culture and the traditional sense of national belonging among Japanese people?
