Longlisted for the 2020 Wainwright Prize 'I can't remember the last book I read that I could say with absolute assurance would save lives. But this one will' Chris Packham 'Fabulously direct and truthful, filled with energy but devoid of self-pity . . . I was impressed and enchanted. Highly recommended' Stephen Fry 'Succeeds - triumphantly - in articulating with great honesty what it is like to suffer with a mental illness, and in providing strategies for coping' Mail on Sunday When Joe Harkness suffered a breakdown in 2013, he tried all the things his doctor recommended: medication helped, counselling was enlightening, and mindfulness grounded him. But nothing came close to nature, particularly birds. How had he never noticed such beauty before? Soon, every avian encounter took him one step closer to accepting who he is. The positive change in Joe's wellbeing was so profound that he started a blog to record his experience. Three years later he has become a spokesperson for the benefits of birdwatching, spreading the word everywhere from Radio 4 to Downing Street. In this groundbreaking book filled with practical advice, Joe explains the impact that birdwatching had on his life, and invites the reader to discover these extraordinary effects for themselves.

Larry Bird captured the imagination and admiration of basketball fans throughout his thirteen-year career with the Boston Celtics with his trademark style of creative, intelligent, exciting, and hard-nosed play. And then, last year in his rookie season as head coach of the Indiana Pacers, he infused the team with these same qualities -- and the results were remarkable. He turned around a slumping franchise and led the Pacers to the conference finals. To finish off a great season, Bird was named the NBA's "Coach of the Year" -- quite an accolade for Bird, who had never coached before and surprised many fans with his unusual and unorthodox coaching methods. This book is a look into one of the greatest minds to have ever stepped on a hardwood court. Larry Bird shares his inner thoughts on basketball that to date only his Celtic teammates and Pacers players have been privy. From dissecting offensive and defensive strategies to assessing the talent of NBA players; from sharing the genesis of his coaching philosophies to how he deals with today's overpriced and temperamental players, it's all there. This book is Larry Bird's basketball playbook, and it's the one book every basketball fan will want to read. Birding in Connecticut Xlibris Corporation

Bird watching (birdwatching) or also known as birding is the observation and study of birds with the naked eye or with the use of binoculars. Birding also includes the auditory component, since birds can be easily and readily detected using the ear than the eye. Most people follow bird watching as a hobby. Birdwatching can be traced back as early as the Victorian Era in Britain when

the study of birds and natural history became fashionable. Collectors would collect eggs, skins and feathers from different colonies. But in the 1800s there was a popular call for the protection of birds, this led to the observation on living birds. You are about to learn almost all the necessary info relating birdwatching.

This book is about the hobby of bird-watching. It is an interesting hobby and can be educational too. As you are reading this book, you can see pictures of the birds and the different activities they engage in. As mentioned in the beginning, some people start this hobby in their own backyard. I also mentioned that other bird-watchers go out to parks and hiking trails to observe the birds of the area. However you decide to start bird-watching, enjoy your activities and share your experiences with your family and friends.

From the tufted puffin in the Pacific Northwest to the hook-billed hermit in the Brazilian rainforest, birds worldwide suffer from the effects of climate change. Scientists have found declines of up to 90 percent in some troubled bird populations and unprecedented reproductive failure in others. The most recent studies suggest that 1,227 avian species are threatened with extinction and an additional 838 near-threatened species are urgent priorities for conservation action. This book is an illustrated tour of these endangered birds and their habitats. It features all 1,227 species on the International Union for Conservation of Nature (IUCN) Red List, detailing the environmental pressures and conservation prescriptions that hold their futures in the balance. It describes the major bird habitats, including tropical forests; temperate and northern forests; deserts; mountains; grasslands; and Mediterranean, marine, freshwater, and oceanic islands. It gives an overview of bird species by region -- categorized by family

within each region, and a guide to the world's best birding sites. An important tool of a birdwatcher is a good identification guide. Most cover the birds of Europe and few deal exclusively with Ireland. This first photographic identification guide to the birds of Ireland has over 1,600 photos of more than 260 species, in an easy, quick-reference format. With eight to fifteen images per species, the key identification features of each bird are shown, with concise descriptions and pointers to indicate important features. This guide is produced in association with BirdWatch Ireland, Ireland's leading bird-conservation organisation. The purchase of this guide contributes funds to BirdWatch Ireland's conservation and education initiatives to help protect and promote Ireland's wild birds and habitats. similar to: Ireland's Garden Birds by Jim Wilson and Oran O'Sullivan.
