SHERMAN COMPTON

Charles Baudelaire: Oeuvres Complètes (Golden Deer Classics) New York : B. Franklin

Here approximately two hundred works by French and Spanish artists chart the development of this cultural influence and map a fascinating shift in the paradigm of painting, from Idealism to Realism, from Italy to Spain, from Renaissance to Baroque. Above all, these images demonstrate how direct contact with Spanish painting fired the imagination of nineteenth-century French artists and brought about the triumph of Realism in the 1860s, and with it a foundation for modern art."--BOOK JACKET.

Le Peintre-graveur Illustré (xixe Et Xxe Siècles) Metropolitan Museum of Art

The studies in this book set out to examine the labile resonances of phenomenology and art in Michel Henry, by examining the different figures of movement given to the concept of the aesthetic by the philosopher. They are preceded by one of Michel Henry's own texts. Les études qui composent ce livre proposent d'interroger les résonances labiles de la phénoménologie et de l'art chez Michel Henry, en examinant les différentes figures du déplacement imprimé par le philosophe au concept d'esthétique. Le tout est précédé d'un texte de Michel Henry.

QUESTIONS DE METHODE I. Au contraire de Sartre qui, a partir de quelques elements cueillis dans les écrits de Husserl concernant la conscience ima geante, a blti sa propre doctrine de!'imagination, nous nous proposons de reconstituer, a partir de ces m~mes elements, ce qu'on pourrait appeler la theort:e husserlienne de l'imagination, c'est-a-dire la theorie que Husserl eut lui-m~me construite, s'il avait reuni en une synthese les elements qu'il a laisses epars. Une entreprise de ce genre est toujours delicate et souleve des prob!emes difficiles - a commencer par celui de sa legitimite. N ous ecartons d'emblee l'objection d'ordre general qui contesterait le droit de systematiser dans l'reuvre d'un auteur ce que lui-m~me a laisse disperser et eventuellement inacheve. Par un tel scrupule, on sacrifie sans doute a la rigueur historique mais on est beaucoup moins soucieux de penetrer une pensee dans son dynamisme in terne et profond et, en derniere analyse, on protege les droits de l'archeologie mais non pas ceux de la culture et de son progreso Nous pensons a une difficulte beaucoup plus serieuse; de sa so lution depend l'attitude a adopter en face des textes dont nous devons nous servir dans notre etude. Nous utilisons des ouvrages qui couvrent la totalite de la car riere philosophique de Husserl.

Goya Metropolitan Museum of Art

The first major English-language biography of Francisco Goya y Lucientes, who ushered in the modern era The life of Francisco Goya (1746–1828) coincided with an age of transformation in Spanish history that brought upheavals in the country's politics and at the court which Goya served, changes in society, the devastation of the Iberian Peninsula in the war against Napoleon, and an ensuing period of political instability. In this revelatory biography, Janis Tomlinson draws on a wide range of documents—including letters, court papers, and a sketchbook used by Goya in the early years of his career—to provide a nuanced portrait of a complex and multifaceted painter and printmaker, whose art is synonymous with compelling images of the people, events, and social revolution that defined his life and era. Tomlinson challenges the popular image of the artist as an isolated figure obsessed with darkness and death, showing how Goya's likeability and ambition contributed to his success at court, and offering new perspectives on his youth, rich family life, extensive travels, and lifelong friendships. She explores the full breadth of his imagery—from scenes inspired by life in Madrid to visions of worlds without reason, from royal portraits to the atrocities of war. She sheds light on the artist's personal trials, including the deaths of six children and the onset of deafness in middle age, but also reconsiders the conventional interpretation of Goya's late years as a period of disillusion, viewing them instead as years of liberated artistic invention, most famously in the murals on the walls of his country house, popularly known as the "black" paintings. A monumental achievement, *Goya: A Portrait of the Artist* is the definitive biography of an artist whose faith in his art and his genius inspired paintings, drawings, prints, and frescoes that continue to captivate, challenge, and surprise us two centuries later.

Dictionnaire de Bibliologie Catholique Metropolitan Museum of Art

In the English-speaking world the First World War is all too often portrayed primarily as a conflict between Britain and Germany. The vast majority of books focus on the Anglo-German struggle, and ignore the dominant part played by the French, who for most of the war provided the bulk of the soldiers fighting against the central powers. As such, this important and timely book joins the small but growing collection of works offering an overdue assessment of the French contribution to the Great War. Drawing heavily on French primary sources the book has two main foci: it is both an in-depth battle narrative and analysis, as well as a work on the tactical evolution of the French army in Spring 1915 as it endeavored aggressively to come to grips with trench warfare. This period is of crucial importance as it was in these months that the French army learned the foundations of trench warfare on which their conduct for the remainder of the war would rest. The work argues that many advanced practices often considered German innovations - such as the rolling barrage, infiltration

tactics, and the effective planning and integration of artillery bombardments - can all be traced back to French writing and action in early 1915. The work argues that - contrary to received opinion - French army bureaucracy proved effective at very quickly taking in, digesting and then disseminating lessons learned at the front and French commanders proved to be both effective and professional. Such radical conclusions demand a fundamental rethink of the way we view operations on the Western Front.

Dictionnaire historique des peintres de toutes les écoles depuis les temps les plus reculés jusqu'à nos jours ... Ouvrage ... précédé d'un abrégé de l'histoire de la peinture, suivi de la nomenclature des peintres modernes et d'une collection complète de monogrammes Librairie Droz

Rembrandt's life and art had an almost mythic resonance in nineteenth-century France with artists, critics, and collectors alike using his artistic persona both as a benchmark and as justification for their own goals. This first in-depth study of the traditional critical reception of Rembrandt reveals the preoccupation with his perceived "authenticity," "naturalism," and "naïveté," demonstrating how the artist became an ancestral figure, a talisman with whom others aligned themselves to increase the value of their own work. And in a concluding chapter, the author looks at the play *Rembrandt*, staged in Paris in 1898, whose production and advertising are a testament to the enduring power of the artist's myth.

Art in America Reaktion Books

This book presents the first focused investigation of Francisco Goya's (1746–1828) graphic output. Spanning six decades, Goya's works on paper reflect the transformation and turmoil of the Enlightenment, the Inquisition, and Spain's years of constitutional government. Two essays, a detailed chronology, and more than 100 featured artworks illuminate the remarkable breadth and power of Goya's drawings and prints, situating the artist within his historical moment. The selected pieces document the various phases and qualities of Goya's graphic work—from his early etchings after Velázquez through print series such as the *Caprichos* and *The Disasters of War* to his late lithographs, *The Bulls of Bordeaux*, and including albums of drawings that reveal the artist's nightmares, dreams, and visions.

The First Proofs of the Universal Catalogue of Books on Art Compiled for the Use of the National Art Library and the Schools of Art in the United Kingdom by Order of the Lords of the Committee of Council on Education Routledge

This book is a biography and a showcase of the work of Francisco José de Goya y Lucientes, a Spanish romantic painter and printmaker. He is considered the most important Spanish artist of the late 18th and early 19th centuries. His paintings, drawings, and engravings reflected contemporary historical upheavals and influenced important 19th- and 20th-century painters.

Artibus Et Historiae Yale University Press

This intriguing book on Goya concentrates on the closing years of the eighteenth century as a neglected milestone in his life. Goya waited until 1799 to publish his celebrated series of drawings, the *Caprichos*, which offered a personal vision of the "world turned upside down". Victor I. Stoichita and Anna Maria Coderch consider how themes of Revolution and Carnival (both seen as inversions of the established order) were obsessions in Spanish culture in this period, and make provocative connections between the close of the 1700s and the end of the Millennium. Particular emphasis is

placed on the artist's links to the underground tradition of the grotesque, the ugly and the violent. Goya's drawings, considered as a personal and secret laboratory, are foregrounded in a study that also reinterprets his paintings and engravings in the cultural context of his time.

The Art Criticism of Theophile Gautier Amsterdam University Press

"A review of Goya's life as it unfolded before he bought the quinta in 1819 will provide an impression of the complexion of the man who soon offered such awe-inspiring imagery on the walls of two of its rooms. An examination of the quinta setting which yields a somewhat revised plan of how the 'black' paintings were seen will then demonstrate that the paintings were envisioned as a program consisting of two separate, though not unrelated, cycles. (Unhappily, Goya's placement of the scenes cannot yet be repeated in full.) An analysis of the subjects set forth upon the quinta walls will illustrate the significances and relevancies they should have held at the time in which they were created, and thus, their *raison d'être*. A consideration of possible antecedents which may have given impetus to the formulation and format of the program, and indications of Goya's alertness to works by his contemporaries in art, literature and the theater, will furnish insight into the plans he may have held for the 'black' paintings he brushed with such urgency within his quinta rooms."-- Introduction, page 13

Chronique Médicale Princeton University Press

El cine español contemporáneo (1990-2005) dedica mucha atención a la rememoración del pasado (Segunda República, la Guerra Civil, el período franquista, ¿) y la realidad social (el paro, la violencia doméstica, inmigración, eutanasia, ¿). Directores renombrados como Pedro Almodóvar, Alejandro Amenábar, Fernando León de Aranoa, Icíar Bollaín, o Isabel Coixet, muestran este interés dentro de sus miradas cinematográficas. La gran popularidad de este cine ha estimulado su migración en pantallas ajenas y dentro de contextos universitarios nacionales e internacionales. Este libro reúne unos veinte artículos, de investigadores americanos y europeos, que ilustran las múltiples tradiciones culturales en vigor dentro de los estudios cinematográficos, y que se enfocan al mismo tiempo en el tema central del libro: ¿Cómo se puede leer, la mirada de los autores españoles, sobre el pasado y el presente, dentro del contexto de su cine nacional?

Biographie Universelle, Ancienne Et Moderne Hispanic Society of America

Manet, a founding father of modernism, is one of the towering figures of 19th-century art. In this volume, Carol Armstrong looks closely at Manet's works to uncover a view not only of the artist but also of modernity itself. As she places his art within frameworks of colour, the feminine Other (the Manette in Manet), and consumerism, Armstrong seeks to expand and revise our understanding of this artist as a painter of modern life.

Goya, an account of his life and works Metropolitan Museum of Art

From the Classicism of Jacques-Louis David to the Realism of Courbet and the Early Impressionism of Renoir, this book outlines the course taken by painting and sculpture in Europe during the 19th century. Faced with the untidy sprawl of individualism which followed the French Revolution and threw up isolated geniuses like Goya, the author nevertheless charts the currents in what was predominantly a century of Naturalism and also - whilst artists were increasingly preoccupied with the inner man - of great landscape-painting when Friedrich, Corot and the Impressionists proper added light and atmosphere to the former achievements of the great Dutch masters.

Painting and Sculpture in Europe 1780-1880 Rodopi

Reprint of the original, first published in 1870.

Goya Yale University Press

Francisco Goya y Lucientes (1746-1828) created magnificent paintings, tapestry designs, prints, and drawings over the course of his long and productive career. Women frequently appeared as the subjects of Goya's works, from his brilliantly painted cartoons for the Royal Tapestry Factory to his stunning portraits of some of the most powerful women in Madrid. This groundbreaking book is the first to examine the representations of women within Goya's multifaceted art, and in so doing, it sheds new light on the evolution of his artistic creativity as well as on the roles assumed by women in late eighteenth- and early nineteenth-century Spain. Many of Goya's most famous works are featured and explicated in this beautifully designed and produced book. The artist's famous tapestry cartoons are included, along with the tapestries woven after them for the royal palaces of the Prado and the Escorial. Goya's infamous Naked Maja and Clothed Maja are also highlighted, with a discussion on whether these works were painted at the same time and how they might have originally hung in relation to one another. Focus is also placed on Goya's more experimental prints and drawings, in which the artist depicted women alternatively as targets of satire, of sympathy, or of admiration. Essays by eminent authorities provide a historical and cultural context for Goya's work, including a discussion on the significance of fashion and dress during the period. The resultant volume is surely to be treasured by all who admire Goya's art and by those who are interested in women's issues of his time.

First Proofs of the Universal Catalogue of Books on Art Routledge

"This book is the first to examine the extraordinary Goya collection--which includes more than 1,400 prints, a drawing, and three paintings--in the Norton Simon Museum. The collection includes prints from various series and editions treating a range of subjects, such as religious iconography, landscapes, portraits, and social satire. Lushly illustrated and authored by a distinguished Goya scholar, this catalogue is an essential guide to a treasure trove of the artist's works"--

Fifteenth- to Eighteenth-century European Paintings BoD - Books on Demand

Many cultures accept that a person may die and then come back to life in another form, but Westerners have traditionally rejected the idea. Recently, however, surveys conducted in Europe indicate a substantial increase in the number of Europeans who believe in reincarnation, and numerous claims of reincarnation have been reported. This book examines particular cases in Europe that are suggestive of reincarnation. The first section provides a brief history of the belief in reincarnation among Europeans. The second section considers eight cases from the first third of the twentieth century that were not independently investigated, but were reported and sometimes published by the persons concerned. The third section covers 32 cases from the second half of the twentieth century that were investigated by the author. Many of these cases involved either children who exhibited unusual behavior attributed to a previous life, or adults who experienced recurrent or vivid dreams attributed to a previous life. In the fourth section, the author compares European cases suggestive of reincarnation with those of other countries and cultures.
