Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the

center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. *LONG WALK TO FREEDOM* is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. India will soon be the world's most populated country and its political development will shape the world of the 21st century. Yet Hindu nationalism – at the helm of contemporary Indian politics – is not well understood outside of India, and its links to the global neoliberal trajectory have not been much explored. This important book shows for the first time why it is education, not a failed political system, that led to the rise of Modi and the right-wing nationalist ideology of Hindutva. It provides in depth insight into contemporary Indian politics and wider societal acceptance of India's Hindu nationalist trajectory, as well as examining the role of class. The first five years of Modi rule failed to bring about the development that had been promised and have seen India's rapid change from a largely inclusive society to one where religious minorities are denied their basic rights.
