Manual de la Nueva Gramática de la lengua española Routledge  
Language standardization is an ongoing process based on the notions of linguistic correctness and models. This manual contains thirty-six chapters that deal with the theories of linguistic norms and give a comprehensive up-to-date description and analysis of the standardization processes in the Romance languages. The first section presents the essential approaches to the concept of linguistic norm ranging from antiquity to the present, and includes individual

chapters on the notion of linguistic norms and correctness in classical grammar and rhetoric, in the Prague School, in the linguistic theory of Eugenio Coseriu, in sociolinguistics as well as in pragmatics, cognitive and discourse linguistics. The second section focuses on the application of these notions with respect to the Romance languages. It examines in detail the normative grammar and the normative dictionary as the reference tools for language codification and modernization of those languages that have a long and well-established written tradition, i.e. Romanian, Italian, French, Catalan, Spanish, and Portuguese. Furthermore, the volume offers a discussion of the key

issues regarding the standardization of the 'minor' Romance languages as well as Creoles.

"Manual de Gramática" with Atajo Writing Assistant CD-ROM is a reference grammar for intermediate and advanced students of Spanish. It combines clear, easy-reference charts with detailed grammar presentations in English and conceptual distinctions between Spanish and English. A chapter of practice exercises, writing activities correlated to Atajo, plus an appendix clarifying common lexical difficulties make this a valuable tool for intermediate and advanced literature and language courses.

Routledge  
Esta 4a edición actualizada de Hablar y escribir correctamente responde a la necesidad de poner al día los contenidos normativos

tras los muchos cambios y las muchas novedades (algunos de gran calado) en las normas de corrección que las Academias de la Lengua Española han tenido a bien llevar a cabo en sus magnas y recientes obras Nueva gramática de la lengua española (finales del año 2009) (el Manual de esta gramática, mucho más reducido, se publicó a mediados de 2010) y Ortografía de la lengua española, de finales de 2010. Hemos aprovechado la actualización de nuestra obra en su 4a edición con la doctrina académica normativa que en tales obras académicas se vierte, para corregir al mismo tiempo algunos errores y erratas, así como para añadir o matizar algunos fenómenos normativos del español de hoy. Por tanto, el lector tiene ante sí una nueva edición muy actualizada, corregida y aumentada. Esta obra es una herramienta utilísima para profesores y estudiantes de español, que tienen la obligación de conocer las actuales normas de corrección gramatical y los cambios normativos que se han produciendo últimamente, no solo para hablar y escribir con corrección

sino también para, apoyándose en ellas, poder reflexionar sobre el funcionamiento de los diversos sistemas de la gramática; también para las personas que necesitan de los conocimientos de corrección idiomática a la hora de llevar a cabo sus tareas profesionales (secretarios, secretarías, periodistas, políticos...), y, sin duda, para los extranjeros que quieren aprender nuestra lengua de forma correcta, sin olvidar a todos aquellos que sin ser especialistas sienten curiosidad por los problemas que una lengua como la nuestra plantea a cada instante. La obra es accesible a todos los sectores sociales mencionados, pues presenta un lenguaje sencillo, nada técnico, y una estructura de manual. Ello no va en detrimento de los contenidos, que son rigurosos y están perfectamente documentados. Por otra parte, la obra ofrece una carga divulgativa seria de las normas académicas más recientes, pero, en ocasiones, se discrepa –y así se hace saber al lector– respecto de algunos fenómenos normativos concretos, proponiéndose otras posibles soluciones.

Además, se tratan algunas cuestiones de corrección que las Academias no abordan por el momento. Estamos, pues, ante una obra sencilla, eminentemente divulgativa y totalmente al corriente de las últimas novedades académicas, cuyo conocimiento ayudará, sin duda, al lector a expresarse sin errores tanto en su modalidad oral como en la escrita.

#### Diccionario esencial de la lengua española Espasa (abridged and revised)

This reference grammar offers intermediate and advanced students a reasonably comprehensive guide to the morphology and syntax of educated speech and plain prose in Spain and Latin America at the end of the twentieth century. Spanish is the main, usually the sole official language of twenty-one countries, and it is set fair to overtake English by the year 2000 in numbers of native speakers. This vast geographical and political diversity ensures that Spanish is a good deal less unified than French, German or even English, the latter more or less internationally standardized according to either American or British norms. Until the 1960s, the criteria of internationally correct Spanish were dictated by the Real Academia Española, but the prestige of this institution has now sunk so low that its most solemn decrees are hardly

taken seriously - witness the fate of the spelling reforms listed in the Nuevas normas de prosodia y ortograjia, which were supposed to come into force in all Spanish-speaking countries in 1959 and, nearly forty years later, are still selectively ignored by publishers and literate persons everywhere. The fact is that in Spanish 'correctness' is nowadays decided, as it is in all living languages, by the consensus of native speakers; but consensus about linguistic usage is obviously difficult to achieve between more than twenty independent, widely scattered and sometimes mutually hostile countries. Peninsular Spanish is itself in flux.

Gramática normativa de la lengua española New Directions Publishing Corporation Sebastián de Covarrubias's famous Treasure of the Castilian or Spanish Language was first published in 1611, only two years before the author's death. A contemporary of Cervantes, learned in Hebrew and Arabic languages, Covarrubias wrote his encyclopedic dictionary to explore the heterogeneous origins of words and their hidden connections to the moral, transcendental, and everyday meanings of the world. Here, the translator Janet Hendrickson has

dived deep into this influential, pre-Enlightenment text to cull a coherent, poetic selection of Covarrubias's pioneering work.
