THIS BOOK DOESN'T CONTAIN ANY ARABIC LETTERS! ALL ARABIC WORDS IN THIS BOOK WERE WRITTEN IN ENGLISH-

TRANSLITERATION! Have you always wanted to learn how to speak the Kuwait Arabic Dialect but simply didn't have the time? Well if so, then, look no further. You can hold in your hands one of the most advanced and revolutionary method that was ever designed for quickly becoming conversational in a language. In creating this time-saving program, master linguist Yatir Nitzany spent years examining the twenty-seven most common languages in the world and distilling from them the three hundred and fifty words that are most likely to be used in real conversations. These three hundred and fifty words were chosen in

such a way that they were structurally interrelated and, when combined, form sentences. Through various other discoveries about how real conversations work--discoveries that are detailed further in this book--Nitzany created the necessary tools for linking these words together in a specific way so that you may become rapidly and almost effortlessly conversant--now. If your desire is to learn complicated grammatical rules or to speak perfectly proper and precise Arabic, this book is not for you. However, if you need to actually hold a conversation while on a trip to Kuwait, to impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have been looking for. This book is recommended for those who already have some prior knowledge of the pronunciation of Arabic accents (such as the Arabic accents: ayin, ghayn, ha, and khaf). For those of you who do not, this book does indeed provide some great, in-depth techniques on the pronunciation and recognition of these accents, that you will

encounter throughout the program. These techniques have proven extremely beneficial for beginner students who were previously unfamiliar with these accent pronunciations. But keep in mind this isn't a pronunciation book! This method is designed for fluency in a foreign language, while communicating in the first person present tense. Nitzany believes that what's most important is actually being able to understand and be understood by another human being right away. Therefore, unlike other courses, all words in this program are taught in English transliteration, without having to learn the complex alphabet. More formalized training in grammar rules, etc., can come later. This is one of the several, in a series of instructional language guides, the Nitzany Method's revolutionary approach is the only one in the world that uses its unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No more depending on volumes of books of fundamental, beginner, intermediate,

and advanced levels, all with hundreds of pages in order to learn a language. With Conversational Arabic Quick and Easy, all you need are forty-six pages. Learn Kuwaiti Arabic today and get started now!

The Comprehensive Guide to Levantine Arabic Paiboon Pub

This book is a basic, direct and self-guided handbook to learn Levantine dialect. It is a simple, easy to use textbook for both the motivated student and teacher alike. It is useful for beginners with no knowledge of Arabic and for those who have had about a semester or two of either dialect or MSA. It is particularly helpful for people who are going to travel to the Levant for the first time or those who have lived there for a

while and need to master and reinforce what they have learned. The book is designed for foreign students who have little or no knowledge of Arabic, formal or informal. It can be used by students themselves on their own, or with the help of an instructor or a tutor. Basically every word is introduced in three forms: Arabic form, transliteration form and English meaning. A beginner non-native who only desires to speak and communicate orally can rely on transliteration and English, while a more experienced student, a heritage student or a non-native with a year of exposure to Arabic who can read and has learned some basic survival vocabulary, may also benefit from the Arabic script and the grammatical notes available in the book. Even if you are well versed in MSA, you still need to have this book. You may already be able to read the newspaper headlines or listen to the news and read a street sign, but it will sound very awkward to use MSA when you meet and greet someone, need a taxi, ask for directions, bargain and negotiate, open a bank account, order a meal or a

sandwich, chat with someone in the street or in a cafe, enter a supermarket or a store, ask for the time, or make an appointment and get to know someone on a personal or even professional level, etc. The book is divided into 72 sections, and 24 lessons, mainly by topic. Each section contains pertinent vocabulary needed and used when dealing with the situation at hand. So if you are looking for a word about clothing, or medicine, for example, you simply look in that particular section. There are also sufficient exercises in translation with answers provided for you to doublecheck and verify your knowledge. Do the exercise first before you look up the answer. Continuously test yourself, memorize new words, read and speak out loud even when you are alone and pick the brain of a native friend or acquaintance. Lebanese, and Arabs in general, are impressed when you attempt to speak Arabic with them. They will go out of their way to help you and make your acquaintance. However, they will also try first to practice their English or French with you. Most of them are bilingual or even

trilingual. Do not fall for this. Insist on using your Arabic first. The best way to learn a foreign language is through total immersion. Go ahead, immerse yourself. You will be forced to float. Drowning is not an option. You are too smart to drown. Study this book, and find a group of natives to chat with. Better yet, visit Lebanon and have some maza, tabbouli and araq. Then, we'll talk. Do not be afraid to make mistakes. Keep on trying. Practice makes perfect.

Specifically designed for learners of Modern Standard Arabic, the Lingualism Arabic Learner's Dictionary presents the language as it is actually used by Arabs today. The dictionary includes recent additions to Modern Standard Arabic, as well as foreign borrowings. The vocabulary covered in the dictionary has been taken from a variety of sources to include words and phrases likely to appear in learners' course books, as well as modern literature and the media, for a total of over 17,000 Arabic words and phrases. One of the significant advantages of this dictionary is its user-friendliness. Although entries are arranged according to their roots, which can prove challenging for learners, various aids and strategies are presented to assist in finding the sought entry efficiently, including an alphabetical index of hard-to-find roots and a table on the back cover to assist in pinpointing a root's page number quickly. A wealth of information related to the headword is included: plural and relative forms, conjugations, grammatical structures, compound nouns, common phrases,

idioms, and proverbs, as well as example sentences when required to make the usage or meaning clear. Dozens of photos illustrate cultural and religious concepts. The dictionary also contains geographical information, including maps for each Arabic-speaking country, as well as entries for most countries, their capitals, and large cities throughout the world. Verb entries contain table references, which can be found in the dictionary's companion book *Modern Standard Arabic Verbs Conjugation Tables*. The goal of *Egyptian Arabic Diaries* is to provide intermediate and advanced learners with authentic materials to practice both reading and listening skills in authentic Egyptian Colloquial Arabic (ECA). The twenty texts that appear in this book have been written and recorded by native speakers from around Egypt. The texts have been dubbed diary entries, although they are actually short personal essays that the contributors have chosen to share with learners of their language. Each diary

entry appears in various forms to allow you to study the language from a variety of focal points. The unvoiced Arabic text provides realistic reading practice. Although ECA has no official rules of orthography, there are spelling conventions which are widely agreed upon by most Egyptians. Still, there remain differences in personal preferences, especially when it comes to the spelling of conjugated verbs and function words such as prepositions, conjunctions, and pronouns. Some try to preserve the spelling used in Modern Standard Arabic (MSA) as much as possible, while others prefer to represent the actual sounds of ECA. Many people tend to be inconsistent even in their own spelling, as they are basically sounding things out as they go. To keep all this a bit neater, Lingualism has adopted a consistent orthography based on the most popular spelling conventions. The English translation stays true to the original Arabic, sentence by sentence, making it easy to find the corresponding translation. The translation can be used to compare similarities and

differences between the style and structure of sentences in the two languages. The handwritten text is an invaluable addition to the materials, allowing you to familiarize yourself with natural Arabic handwriting. You can try your best to decipher the handwritten words, and then compare them to their typed counterparts, progressively improving your ability to read handwriting by various individuals. You can also copy (or trace) traits of the handwritten letters to make your own handwriting more natural. The voweled text is found in the left-most column of the three-column in-depth study section. Every effort has been made to provide systematic and accurate vowelings (tashkeel). Keep in mind that Arabic script, as it is written by Egyptians, does not always represent the actual sounds. Vowels may be shortened, elided, or even inserted in places. The phonemic transcription allows for close study of the actual pronunciation. Even if you prefer the Arabic script, you will find it well worth your time to familiarize yourself with Lingualism's phonemic transcription system. Using the

phonemic transcription allows you to better understand the sound patterns in ECA, thereby improving your own pronunciation. The word-by-word translations act as a glossary. You can easily find the literal meaning of every word without having to search through lists of words. And more than just a glossary, the word-by-word translations give you a better understanding of the grammar and style of Arabic. Try reading these English sentences out loud. They will sound quite strange, but this will help you get used to the

logic of Arabic sentences. Notes are referenced with an asterisk under a column's number and follow the three-column section. These notes highlight interesting points of grammar and vocabulary.

Arabic vs Arabic

Lingualism.com
Every verb in Modern Standard Arabic can be grouped with other verbs sharing identical patterns of conjugation. These patterns (groups) are presented as 120 conjugation tables which show how to conjugate any verb in all persons, tenses, and moods. Each

form is followed by its transcription (pronunciation) to make the tables user-friendly for learners at all levels. An index lists nearly 4,000 of Arabic's most common verbs grouped by table. This book can be used on its own, but also acts as an invaluable companion to the Lingualism Arabic Learner's Dictionary, the verb entries in which contain references to the conjugation tables. Note: This edition uses actual, common verbs in each table to represent conjugation patterns that apply to other verbs, as well.
