The Big Book of Beading Patterns Quarto Publishing Group USA

With interest in beadweaving on the rise, *Mastering Peyote Stitch* provides a much-needed look into the most integral technique--peyote stitch. With 15 styles in all, beading geniuses will finally have an accessible, easy-to-understand guide to one of the fundamentals of beadweaving, brought to you courtesy of Beadwork Editor Melinda Barta. In the "Peyote Basics" chapter, you will learn the basics of creating flat peyote bands, then advance to circular and tubular variations, eventually learning to fashion dimensional jewelry pieces. Once you've mastered the basics, Melinda dives into designing dimensional jewelry pieces. Additional chapters cover combining peyote with other popular beadweaving techniques (right-angle weave, herringbone, and bead embroidery) and creating unique edgings and embellishments for finished pieces. Melinda, together with Beadwork's

Designers of the Year, including Jean Campbell, Lisa Kan, Carole Ohl, Melanie Potter, Jean Power, Cynthia Rutledge, and Sherry Serafini, demonstrates a range of styles in 15 beautiful jewelry projects.

French Beading is a bead-and-wire art from the Renaissance used primarily to make flowers. Learn the art from designer Lauren Harpster in this new publication made specifically for beginners who've never touched beads or wire, but is also an excellent resource for experienced French Beading artists. This title is a hard copy of my Learn French Beading: Beginner Course video series on YouTube. Instructions for accessing the videos are included inside the book (Videos will be available after Feb 29th). \*Part 1 is the "Getting Started" guide. Before making French Beaded Flowers it is very important to understand the materials needed to make them. This section explores tools, beads, wire, and other supplies in detail, though not all of them will be necessary for this course. \*Part 2 is the "Technique Guide", which contains six lessons that teach the techniques included in this course - Continuous Loops, Continuous Crossover Loops, Continuous Wraparound Loops, Fringe, Basic Frame, and Lacing. These lessons are important for learning French Beading terms and abbreviations, and how to read French Beading patterns. I like to teach techniques separately from flower patterns because there's so much more I can teach you about an individual technique than what I can cover in a single flower pattern. There are also some variations of the techniques that are not used in the practice patterns, but

are included for education and reference. This section is also intended to be a one-stop technique reference so you can quickly look up specific techniques while working with other flower patterns. Each lesson has a video demonstration so you can see the techniques in action, but they also contain picture and written instructions for the techniques. \*Part 3 contains four wildflower patterns that I've developed specifically for helping you practice the base techniques learned in Part 2 - Lavender, Dame's Rocket, Blue Virgin's Bower, and Black-Eyed Susan. The patterns have been written with beginners in mind and contain a high level of detail, so they're a great way to dip your toes into the art. This section is important for seeing practical application of the techniques, reinforcing the ability to read patterns, and learning how to assemble and shape a variety of flowers. I have also made video demonstrations of each of the flowers. While I demonstrate flower parts fully in the videos, I only show techniques as they are used in that particular flower. So you can start with Part 3 if you use the videos, but I do recommend that you go back through the lessons in Part 2. \*Part 4 will demonstrate how to arrange the flowers from Part 3 to make a wildflower arrangement. I am not a professional florist, but I'd like to share what I've learned about arranging beaded flowers. This section is included only in the book version of the course.

In Easy Crystal Stitching, Sophisticated Jewelry, Nikia Angel uses several basic designs to create complex jewelry. Beaders stitch individual elements, such as circles, squares, or triangles that are not hard to make or require much time, and use them as building blocks to construct intricate and sophisticated-looking finished jewelry. Beaders will also learn how to stitch a bezel for a rivoli, create a bail for pendants, make a spiral rope, and stitch a toggle clasp. Stitching these circles, squares, and triangles together into necklaces, bracelets, earrings, and rings transforms small components into stunning showstoppers!

**Mastering Peyote Stitch** Lucky Spool Keeping to a theme started in Crewel Twists, this book continues the concept of using non-traditional techniques and materials in crewel or Jacobean embroidery. It showcases four large

projects, each with an accompanying small project similar in technique, and shows needle workers how to be creative with threads, alternative stitches and beads. Traditional techniques are explained but are extended with the use of bead embroidery, needle lace techniques, and stitches not normally used in crewel work. Many new needle lace and bead embroidery techniques are incorporated, and the book also explores weaving techniques used to create textures like twill and lace weaves, as well as patterns similar to tartan and houndstooth check. Every project is clearly explained with step-by-step instructions and lots of photographs, and the completed embroideries are once again displayed in ways that are both decorative and functional in the home. Templates of the original designs complete this magnificent source for creative embroidery.
