I'm scum. Yes, I always have been. . . . I know what I did, and what I should have done. A spellbinding and provocative psychological thriller that shows just how far a man will go to win the most enduring and ruthless of games: the game of power. Raised in the upper echelons of elite New York society, Thomas Spencer has never wanted for much. But much is hardly

enough for a man whose greatest satisfaction lies in shattering the happiness of others. Thomas, the black sheep of his family, harbors only resentment toward those closest to him for what they have more of: good looks, good cheer, good social graces. But what Thomas may lack in charm, he makes up for in cunning. And it is this that will serve him best when he trades in his glittering world of privilege for a chance to claw his way to the top—on his own terms, and at any cost. As Thomas achieves fame and success as an ad man, he becomes ever more deeply entrenched in an insidious underworld of media, politics, and women, and an astonishing picture emerges of a complex, destructive personality who will stop at nothing to get what he wants. Shameless and electrifying, *Story of a Sociopath* illuminates the true nature of power through the mind of a master psychological manipulator.

PLAZA & JANÉS

This is a self-contained exposition by one of the leading experts in lattice theory, George Grätzer, presenting the major results of the last 70 years on congruence lattices of finite lattices, featuring the author's signature Proof-by-Picture method. Key features: * Insightful discussion of techniques to construct "nice" finite lattices with given congruence lattices and "nice" congruence-preserving extensions * Contains complete proofs, an extensive bibliography and index, and over 140 illustrations * This new edition includes two new parts on Planar Semimodular Lattices and The Order of Principle Congruences, covering the research of the last 10 years The book is appropriate for a one-semester graduate course in lattice theory, and it is

a practical reference for researchers studying lattices. Reviews of the first edition: "There exist a lot of interesting results in this area of lattice theory, and some of them are presented in this book.

[This] monograph...is an exceptional work in lattice theory, like all the contributions by this author. ... The way this book is written makes it extremely interesting for the specialists in the field but also for the students in lattice theory.

Moreover, the author provides a series of companion lectures which help the reader to approach the Proof-by-Picture sections." (Cosmin Pelea, *Studia Universitatis Babeş-Bolyai Mathematica*, Vol. LII (1), 2007) "The book is self-contained, with many detailed proofs presented that can be followed step-by-step. [I]n addition to giving the full formal details of the proofs, the author chooses a somehow more pedagogical way that he calls Proof-by-Picture, somehow related to the combinatorial (as opposed to algebraic) nature of many of the presented results. I believe that this book is a much-needed tool for any mathematician wishing a

gentle introduction to the field of congruences representations of finite lattices, with emphasis on the more 'geometric' aspects." —Mathematical Reviews

A magnificent saga of two proud and powerful families--one British, one African--and their battle over Kenya's destiny in the twentieth century. In 1917, Dr. Grace Treverton arrives in Kenya, determined to bring modern medicine to the African natives. Her brother, Sir Valentine Treverton, has his own dream for the British protectorate: to establish an agricultural empire to rival any in England. The aspirations of the wealthy Trevertons collide with those of the Mathenge tribe, an African family that has lived on the land for years. Grace soon finds a deadly rival in Mama Wachera, an African medicine woman who fights to maintain native traditions against the encroaching whites. After Wachera curses the Trevertons, a series of tragedies threatens to destroy what the once-great family fought to create. But the fates of future generations of

these two remarkable families are inextricably bound. A bold and brilliant achievement, *Green City in the Sun* brims with all the drama, violence, and fierce beauty of the Kenyan landscape.

Three weeks after being detained on her way home from school, fourteen-year-old Ella finds herself in the Upper Tailoring Studio, a sewing workshop inside a Nazi concentration camp. There, two dozen skeletal women toil over stolen sewing machines. They are the seamstresses of Birchwood, stitching couture dresses for a perilous client list: wives of the camp's Nazi overseers and the female SS officers who make prisoners' lives miserable. It is a workshop where stylish designs or careless stitches can mean life or death. And it is where Ella meets Rose. As thoughtful and resilient as the dressmakers themselves, Rose and Ella's story is
