The story of invasive species in New Zealand is unlike any other in the world. By the mid-thirteenth century, the main islands of the country were the last large landmasses on Earth to remain uninhabited by humans, or any other land mammals. New Zealand's endemic fauna evolved in isolation until first Polynesians, and then Europeans, arrived with a host of companion animals such as rats and cats in tow. Well-equipped with teeth and claws, these small furry mammals, along with the later arrival of stoats and ferrets, have devastated the fragile populations of unique birds, lizards and insects. Carolyn M. King brings together the necessary historical analysis and recent ecological research to understand this long, slow tragedy. As a comprehensive historical perspective on the fate of an iconic endemic fauna, this book offers much-needed insight into one of New Zealand's longest-running national crises.

The warlock's curse swept across the land, affecting each in a different way. Jian the swordswoman was left blind and in despair, but the Soldier God sent her a dog to act as her eyes. Now the king has summons Jian back into his service. Only a sword fighter without sight can protect the princess whose face is death to any who look upon her. Their mission is to defeat the warlock and lift the curse from the dying land. But can Jian fight well enough under her dog's guidance to survive the perilous journey? And what price will she pay for victory?

"Purtroppo Tommy non annusa. Questo è il suo vero problema! Se annusasse di più avrebbe meno guai secondo me." Parola di Teodorico, Teo per gli amici, cane filosofo e poeta, che si trova a dover affrontare grossi rischi per soccorrere il suo migliore amico, Tommy, che è caduto nelle grinfie di due bulli e non sa proprio a che santo votarsi, in un momento in cui gli amici sono tutti in vacanza, (sarebbero utili soprattutto i pugni di Pietro, detto la roccia), e i genitori... per carità, dei genitori non ne parliamo neanche, sarebbe davvero un bel guaio se lo venissero a sapere! Qualcuno che vorrebbe aiutarlo ci sarebbe, per dire la verità; una ragazzina

italo-francese un po' sballata che si chiama Giselle e che è venuta a stare nella casa accanto. Ma quello che Giselle propone è veramente inaccettabile, purtroppo: un incantesimo da fare di notte seguendo le istruzioni di un vecchio, puzzolente e incartapecorito libro di magia. Roba da matti! Anzi, roba da femmine, secondo Tommy, eppure... ON TWO FEET AND FOUR PAWS, versione inglese del romanzo *Su Due Piedi e Quattro Zampe*, è una coinvolgente avventura da condividere con Tommy e Teo, che ci trascinano dentro la storia alternandosi nella narrazione e mettendo a nudo i loro pensieri e sentimenti. Adatto per bambini a partire dai nove anni e per tutti coloro che amano gli animali.

If you're wondering how being in the presence of an enlightened person may be communicated on the pages of book written by a flawed and complex-if extremely beautiful-cat, let me confess that my only job here is to offer you a mirror. A looking glass of a particular kind. One that reflects back not the contours of your nose or the arch of your brow, but which provides a much deeper reflection of who and what you are. Look closely, dear reader, there's no need to be afraid. For what you will discover, if you ever doubted it, is that your own true nature is quite different from whatever flecks and imperfections may temporarily obscure it. At heart you are a being whose pristine nature is nothing other than pure, great love and pure, great compassion. Mine too!

Four Paws and the End of My Tale delivers a powerful ending to the Four Paws trilogy. It describes how the canine hero, Woofy, adapts to life in the USA

with his military family. Once again, he fosters a connection between the elderly and the young, and when he becomes a school crossing guard, his ability to detect illness and heal, is embraced by not only the children he serves, but their military parents as well. When his owners volunteer him to work with wounded warriors, he decides to prepare his own puppies for a life of loyalty, obedience, and service. He teaches them how to understand and protect humans, how to give them the comfort and healing they need, and at the end of his tale, and close to death, he offers them wisdom in one final lesson--how to let go and say goodbye. In a heartwarming tribute, his beloved mistress, now grown up, takes some of his remains back to the island where he was born, and decides to honor his legacy by allowing his puppies, Wolf and Whistle, to volunteer at her clinic, The K9 Crosser. They continue to heal those around them, and help their new mistress train other dogs to become service animals for those that are suffering physically and emotionally.

There's trouble brewing in the woods of Beauville, and the only witness isn't talking. When Pru Marlowe is called to a forest clearing to help with an illegally trapped bear, she finds a colleague passed out drunk, his pet ferret locked in his truck. When one of her old running buddies turns up dead as well and then the town's pampered pets begin to disappear, Pru can't tell if her heavy-drinking colleague is involved—or how much the ferret, a wise little creature called Frank, knows. Frank's not communicating—even to her—and for once the bad-girl animal psychic is at a

loss. The offer of a job—and maybe something more—from a hunky warden only complicates Pru's life as she goes on her rounds between her small Berkshires hometown and the woods that lie beyond. And although her crotchety tabby, Wallis, would have her make some changes in what has become a familiar routine, Pru knows her special skills set her apart as the only one who can shed light on these crimes—and save the animals at risk. But as the mysteries pile up, Pru is forced to admit that even a city-hardened animal communicator can't understand everything that's going on, and that a small town may be as dangerous as the darkest woods when a predator is on the prowl. Having once been a high-tech multimillionaire in Seattle, Bob Giverman ends up living in a teepee in Bellingham, WA-as a penniless philanthropist-after all of his money is stolen by his crooked financial advisor. But then, quite unexpectedly, fate deals Bob a new hand of cards; and his karma suddenly changes when he accidentally crosses paths with the Great Mahatma Guru-Goomjah in the wilds of British Columbia. Thinking that Bob is a reincarnated Bodhisattva from Calcutta, the Great Mahatma gives him a guru dog and an ancient scroll-which the Alaskan Fixologists are desperate to get their hands on. The soul-wrenching weirdness soon gets even weirder when the sexy Magdalen, out of the goodness of her heart, tries to help Bob, seemingly not knowing that the Weimaraner he's been given is telepathic, nor that the Mahatma's ancient scroll is, in fact, super important to the Great Fixer's cult of believers. (Of course, it's also possible that Magdalen isn't who she appears to be, and thus she might actually know a lot more about the secretive cult than she's letting on.) Note: Fixology appears to have evolved in India from the blending of two Far Eastern theologies.

Yet the Great Fixer-i.e., the deceased originator of Fixology's highly mesmerizing thought philosophy-was always quite reluctant to explain the particulars of how the mystical comingling had occurred, only confirming that a series of miraculous events had happened somewhere along the banks of the Ganges River. And to further cloud the historical record, the elders of each branching schism of Fixology have also refused to divulge any insights into their holy dogmas, stating that all members of their congregations have been required to swear sacred oaths that prevent them from revealing any of the esoteric secrets, which they claim can bring the dead back to life.

There is nothing like the love of a pet, especially one that grows up with you. For siblings Jennifer, Kevin, and Diana, their childhood memories are shaped by their love for their dog Kasey. Kasey and how she came to join the children's family is shown in the true-life story by author Diana Gorman, *Four Paws from Santa Clause*. Jennifer, Kevin, and Diana went to visit a pet store one fall afternoon and fell in love with a puppy they saw in the store. They begged their

mom to get the puppy for them but their mom was hesitant because a dog comes with lots of grow-up responsibilities. She suggests they write to Santa and ask for the puppy under the tree, which the siblings did. Come Christmas morning, what do their eyes see but a six-week-old beagle puppy. They were so excited about the arrival of the puppy, who they named Kasey, but they quickly learned that Mom was right about her care. However, this puppy would touch their hearts forever. Based on her family's own experience with their beagle Kasey arriving as a Christmas gift to Diana and her siblings in 2001, Diana wrote the story as a reminder of the treasure that pets are and as comfort to her niece and nephew after the passing of Kasey in 2018. Dogs do come with a lot of responsibility for any age of owner, but the love, comfort, and protection they give in return is worth the time and attention given to them.

Camille Klump is an American author of children's fiction. *Four Paws and Two Tales* is the second part of a trilogy that recounts the adventures of a dog born on an island who, after two years, is finally reunited with his family and relocated to the USA. Now a young headstrong and rebellious dog, Woofy is faced with many challenges as he tries to adapt to a life of order and obedience with his human family. He struggles to overcome subhuman elements and his own animal instincts in order to serve and protect his owners. Through interactions with other animals and people, he begins to interpret their behavior and realizes there are many valuable lessons to be learned. He discovers that the color of a dog's eyes should not determine how he sees the world and being accepted as a member of the human pack demands great loyalty, sacrifice, and service. As his connection to humans deepen, he begins to use his remarkable power of healing, which comes at a great price. When he is left behind by his family, he is consumed with guilt and sadness, and it is only after being reunited with his mother, that he begins to appreciate the value of her wisdom, which helps to heal his broken heart. She offers him comfort after the sudden death of a loved one, a

loss which leaves him with many unanswered questions. He is surprised to discover that, for some, freedom and happiness means having no home at all, that distance and time can never break the bond of a loving family, and no one should be quick to judge the circumstances behind the most difficult choices. An uplifting tale which reveals that being left behind never means that you are forgotten or no longer loved.

Camille Klump is an American author of children's fiction. *Four Paws and A Tale* is the first part of a trilogy that recounts the adventures of a dog born on an island, who endures the separation from his canine family. He must overcome his trauma, fear and distrust, and adapt and understand the human way of life.

Through loss, grief, and retrospect, he slowly learns the value of obedience love, and loyalty. This story offers hope to those who endure family separation and is an inspiration to parents who struggle with the difficult choices they make, in order to give their children a better life. A tale which provides comfort to those who must let go of their young ones, in order to prepare them to embark on their own adventures. This book speaks to all who live with the guilt of never knowing if their best, was good enough. It is a reminder that heroes come in many sizes, shapes, and colors, and the wisdom of the ages, can still serve us today.
