This volume gathers together a cross-section of essays and book chapters dealing with the ways in which musicians and their music have been pressed into the service of political, nationalist and racial ideologies. Arranged chronologically according to their subject matter, the selections cover Western and non-Western musics, as well as art and popular musics, from the eighteenth century to the present day. The introduction features detailed commentaries on

sources beyond those included in the volume, and as such provides an invaluable and comprehensive reading list for researchers and educators alike. The volume brings together for the first time seminal articles written by leading scholars, and presents them in such a way as to contribute significantly to our understanding of the use and abuse of music for ideological ends.

This collection of essays studies the expression and diffusion of radical ideas in Britain from the period of the English Revolution in the mid-seventeenth century to the Romantic Revolution in the early nineteenth century. The essays included in the volume explore the modes of articulation and dissemination of radical ideas in the period by focusing on actors ('radical voices') and a variety of written texts

and cultural practices ('radical ways'), ranging from fiction, correspondence, pamphlets and newspapers to petitions presented to Parliament and toasts raised in public. They analyse the way these media interacted with their political, religious, social and literary context. This volume provides an interdisciplinary outlook on the study of early modern radicalism, with contributions from literary scholars and historians, and uses case studies as

insights into the global picture of radical ideas. It will be of interest to students of seventeenth- and eighteenth-century literature and history.

NATIONAL BESTSELLER

For more than four hundred years, the art of ballet has stood at the center of Western civilization. Its traditions serve as a record of our past. Lavishly illustrated and beautifully told,

Apollo's Angels—the first cultural history of ballet ever written—is a groundbreaking work. From ballet's origins in the Renaissance and the codification of its basic steps and positions under France's Louis XIV (himself an avid dancer), the art form wound its way through the courts of Europe, from Paris and Milan to Vienna and St. Petersburg. In the twentieth century, émigré dancers taught their art to a generation in the United States and in Western Europe, setting off a new

and radical transformation of dance. Jennifer Homans, a historian, critic, and former professional ballerina, wields a knowledge of dance born of dedicated practice. Her admiration and love for the ballet, as Entertainment Weekly notes, brings “a dancer’s grace and sure-footed agility to the page.”

Analyzing four best-selling novels - by both women and men - written in the feminine voice, this book traces how the creation of women-centered salons and the emergence of a feminine poetic style engendered a new type of literature in eighteenth-century France. The author argues that writing in a female voice allowed writers of both sexes to break with classical notions of literature and

style, so that they could create a modern sensibility that appealed to a larger reading public, and gave them scope to innovate with style and form. Wolfgang brings to light how the 'female voice' in literature came to embody the language of sociability, but also allowed writers to explore the domain of inter-subjectivity, while creating new bonds between writers and the reading public. Through examination of Marivaux's *La Vie de Marianne*, Graffigny's *Lettres d'une*

Péruvienne, Riccoboni's *Lettres de Mistriss Fanni Butlerd*, and Laclos's *Les Liaisons dangereuses*, she shows that in France, this modern 'feminine' sensibility turned the least prestigious of literary genres - the novel - into the most compelling and innovative literary form of the eighteenth century. Emphasizing how the narratives analyzed here refashioned the French literary world through their linguistic innovation and expression of new forms of subjectivity, this study claims an important

role for feminine-voice narratives in shaping the field of eighteenth-century literature. *Lettres historiques et galantes de deux Dames de Condition, dont l'une étoit a Paris, et l'autre en Province* (etc.)
