Finalist for the Pulitzer Prize in Biography *Winner of the 2020 National Book Critics Circle Award*

Winner of the PEN/Jacqueline Bograd Weld Award for Biography A “captivating” (The Washington Post) work of history that explores the life of an unconventional woman during the first half of the 19th century in Edo—the city that would become Tokyo—and a portrait of a city on the brink of a momentous encounter with the West. The daughter of a Buddhist priest, Tsuneno was born in a rural Japanese village and was expected to live a traditional life much like her mother’s. But after three divorces—and a temperament much too strong-willed for her family’s approval—she ran away to make a life for herself in one of the largest cities in the world: Edo, a bustling metropolis at its peak. With Tsuneno as our guide, we experience the drama and excitement of Edo just prior to the arrival of American Commodore Perry’s fleet, which transformed Japan. During this pivotal moment in Japanese history, Tsuneno bounces from tenement to tenement, marries a masterless samurai, and eventually enters the service of a famous city magistrate. Tsuneno’s life provides a window into 19th-century Japanese culture—and a rare view of an extraordinary woman who sacrificed her family and her reputation to make a new life for herself, in defiance of social conventions. “A compelling story, traced with meticulous detail and told with exquisite sympathy” (The Wall Street Journal), *Stranger in the Shogun’s City* is “a vivid, polyphonic portrait of life in 19th-century Japan [that] evokes the Shogun era with panache and insight” (National Review of Books).

In his own humorous style, Knoxville News-Sentinel columnist Sam Venable takes us through the seasons on the calendar. He has been celebrating the seasons since he was a child and recognized four seasons--Christmas, Birthday, Out-of-School, and In-School. Since then he’s added a few more to his calendar--dove, duck, deer, rabbit, quail trukey, trout, fly fishing season. You get the idea. As Sam said, I was able to cram 28 months of activity into each 12-month period. This collection of columns includes celebrations of Groundhog Day to summer to election day to the snows of winter. Cartoons by Martin Gehring spice up the pages and add a special touch of celebration on their own. *Who’s who in Colored America* Anchor

The ostensible goal of the controversial Kilpatrick-Dahlgren Raid on Richmond (February 28–March 3, 1864) was to free some 13,000 Union prisoners of war held in the Confederate capital. But orders found on the dead body of the raid’s subordinate commander, Colonel Ulric Dahlgren, point instead to a plot to capture or kill Confederate president Jefferson Davis and set Richmond ablaze. What really happened, and how and why, are debated to this day. *Kill Jeff Davis* offers a fresh look at the failed raid and mines newly discovered documents and little-known sources to provide definitive answers. In this detailed and deeply researched account of the most famous cavalry raid of the Civil War, author Bruce M. Venter describes an expedition that was carefully planned but poorly executed. A host of factors foiled the raid: bad weather, poor logistics, inadequate command and control, ignorance of the terrain, the failures of supporting forces, and the leaders’ personal and professional shortcomings. Venter delves into the background and consequences of the debacle, beginning with the political maneuvering orchestrated by commanding brigadier general Judson Kilpatrick to persuade President Abraham Lincoln and Secretary of War Edwin Stanton to approve the raid. Venter’s examination of the relationship between Kilpatrick and Brigadier General George A. Custer illuminates the reasons why the flamboyant Custer was excluded from the Richmond raid. In a lively narrative describing the multiple problems that beset the raiders, *Kill Jeff Davis* uncovers new details about the African American guide whom Dahlgren ordered hanged; the defenders of the Confederate capital, who were not just the “old men and young boys” of popular lore; and General Benjamin F. Butler’s expedition to capture Davis, as well as Custer’s diversionary raid on Charlottesville. Venter’s thoughtful reinterpretations and well-reasoned observations put to rest

many myths and misperceptions. He tells, at last, the full story of this hotly contested moment in Civil War history.

"Happy he who has passed his whole life mid his own fields, he of whose birth and old age the same house is witness....For him the recurring seasons, not the consuls, mark the year; he knows autumn by his fruits and spring by her flowers." ~ Claudian, *Carmina Minora* (XX) The Roman calendar originally was determined by the cycles of the moon and the seasons of the agricultural year, and was said to be invented by Romulus, the first king of Rome, around 753 BCE. After several changes over the course of the centuries, the current formula was worked out. According to Livy (I.19), it was Numa Pompilius, the second king of Rome (715-673 BC), who divided the year into twelve lunar months. Later, in honor of his reform, the month of Sextilis was renamed Augustus. It was that month, says Macrobius (I.12), that Augustus first had been elected consul, Egypt had become part of the Roman empire, and the civil wars ended. August also was the eighth month and appropriate for someone who earlier had been named Octavian. *Calendarium Perpetuum*, or Perpetual Calendar in Latin, contains all the elements of the original calendar; i.e., Latin dies, nundinal letters, market days, and Roman Festivals and Ludi (Games). It also contains explanations on the Kalends, Nones, and Ides of the month, plus *Moribus diérum*, or Character of Days in the Calendar. From the modern perspective, the calendar lists modern and nundinal year conversion tables, current days, and has been designed for use year after year.

Fields of Gold critically examines the history, ideas, and political struggles surrounding the financialization of farmland. In particular, Madeleine Fairbairn focuses on developments in two of the most popular investment locations, the US and Brazil, looking at the implications of financiers' acquisition of land and control over resources for rural livelihoods and economic justice. At the heart of *Fields of Gold* is a tension between efforts to transform farmland into a new financial asset class, and land's physical and social properties, which frequently obstruct that transformation. But what makes the book unique among the growing body of work on the global land grab is Fairbairn's interest in those acquiring land, rather than those affected by land acquisitions. Fairbairn's work sheds ethnographic light on the actors and relationships—from Iowa to Manhattan to São Paulo—that have helped to turn land into an attractive financial asset class.

A black farce masterpiece, *Loot* follows the fortunes of two young thieves, Hal and Dennis. Dennis is a hearse driver for an undertaker. They have robbed the bank next door to the funeral parlour and have returned to Hal's home to hide-out with the loot. Hal's mother has just died and the pair put the money in her coffin, hiding the body elsewhere in the house. With the arrival of Inspector Truscott, the thickened plot turns topsy-turvy. Playing with all the conventions of popular farce, Orton creates a world gone mad and examines in detail English attitudes at mid-century. The play has been called a Freudian nightmare, which sports with superstitions about death - and life. It is regularly produced in professional and amateur productions. First produced in London in 1966, *Loot* was hailed as "the most genuinely quick-witted, pungent and sprightly entertainment by a new, young British playwright for a decade" (*Sunday Telegraph*). The Student Edition offers a plot summary, full commentary, character notes and questions for study, besides a chronology and bibliography.

A strikingly original exploration of what it might mean to be authentically human in the age of artificial intelligence, from the author of the critically-acclaimed *Interior States*. "Meghan O'Gieblyn is a brilliant and humble philosopher, and her book is an explosively thought-provoking, candidly personal ride I wished never to end ... This book is such an original synthesis of ideas and disclosures. It introduces what will soon be called the O'Gieblyn genre of essay writing." —Heidi Julavits, author of *The Folded Clock* For most of human history the world was a magical and enchanted place ruled by forces beyond our understanding. The rise of science and Descartes's division of mind from world made materialism our ruling paradigm, in the process asking whether our own consciousness—i.e., souls—might be illusions. Now the inexorable rise of technology, with artificial intelligences that surpass our comprehension and control, and the spread of digital metaphors for self-understanding, the core questions of existence—identity, knowledge, the very nature and purpose of life itself—urgently require rethinking. Meghan O'Gieblyn tackles this challenge with philosophical rigor, intellectual reach, essayistic verve, refreshing originality, and an ironic sense of contradiction. She draws deeply and sometimes humorously from her own personal experience as a formerly religious believer still haunted by questions of faith, and she serves as the best possible guide to navigating the territory we are all entering.
