Wordbook of the Old**

Testament Inter-
Varsity Press
This multivolume work
is still proving to be as
fundamental to Old
Testament studies as
its companion set, the
Kittel-Friedrich

Theological Dictionary of the New Testament, has been to New Testament studies. Beginning with 'ābh ('āb), "father," and continuing through the alphabet, the TDOT volumes present in-depth discussions of the key Hebrew and Aramaic words in the Old Testament. Leading scholars of various religious traditions (including Roman Catholic, Lutheran, Reformed, Anglican, Greek Orthodox, and Jewish) and from many parts of the world (Denmark, France, Germany, Great Britain, Greece, Israel, Italy, the Netherlands, Norway, Sweden, Switzerland, and the United States) have been carefully selected for each article by editors Botterweck, Ringgren,

and Fabry and their consultants, George W. Anderson, Henri Cazelles, David Noel Freedman, Shemaryahu Talmon, and Gerhard Wallis. The intention of the writers is to concentrate on meaning, starting from the more general, everyday senses and building to an understanding of theologically significant concepts. To avoid artificially restricting the focus of the articles, TDOT considers under each keyword the larger groups of words that are related linguistically or semantically. The lexical work includes detailed surveys of a word's occurrences, not only in biblical material but also in other ancient Near

Eastern writings. Sumerian, Akkadian, Egyptian, Ethiopic, Ugaritic, and Northwest Semitic sources are surveyed, among others, as well as the Qumran texts and the Septuagint; and in cultures where no cognate word exists, the authors often consider cognate ideas. TDOT's emphasis, though, is on Hebrew terminology and on biblical usage. The contributors employ philology as well as form-critical and traditio-historical methods, with the aim of understanding the religious statements in the Old Testament. Extensive bibliographical information adds to the value of this reference work. This English edition attempts to serve the needs of Old

Testament students without the linguistic background of more advanced scholars; it does so, however, without sacrificing the needs of the latter. Ancient scripts (Hebrew, Greek, etc.) are regularly transliterated in a readable way, and meanings of foreign words are given in many cases where the meanings might be obvious to advanced scholars. Where the Hebrew text versification differs from that of English Bibles, the English verse appears in parentheses. Such features will help all earnest students of the Bible to avail themselves of the manifold theological insights contained in this monumental work. Transl. John T. Willis.

Rev.ed Wm. B. Eerdmans Publishing
 A standard and widely-used reference work for nearly 40 years, the New International Dictionary of New Testament Theology and Exegesis has been thoroughly revised and updated to aid today's pastors, students, scholars, and teachers in their study of the New Testament. Offering a wealth of background and information on the meaning of Greek words in the New Testament—as well as related usage in classical Greek sources, the Septuagint, Jewish literature, and more—this important tool offers the following features: •
 Alphabetical arrangement according to Greek words instead

of previous order according to English topics; this ensures that individual Greek words are not discussed in isolation from one another and are easy to access • Expanded to include additional Greek words and concepts not covered in the original work, NIDNTTE includes nearly 800 entries covering over 3,000 Greek words • Discussions have been revised to be in line with modern scholarship and bibliographies are updated • Corrections have been made to inconsistencies and omissions in earlier versions • Updated and added consistency to include—for every entry—all necessary background information from classical Greek, the

LXX, and Jewish literature. • A helpful semantic domain index now directs the reader to all of the Greek words that have something to do with a particular English word. For example, under the English word “Anger, Wrath,” there is a list of thirteen Greek words that are related to that topic. • Significant changes have been made in the presentation and discussion of linguistic details • and much more!

Wm. B. Eerdmans Publishing Company
In recent years our knowledge of the individual parts of the Bible has increased greatly, but our understanding of how they fit together has not kept pace. In particular, the relationship between

the Old and New Testaments has been a neglected field of study. The latest in IVP's developing family of New Dictionaries, the 'New Dictionary of Biblical Theology' is an essential tool for students, preachers and ministers, as well as for scholars and others seeking a better grasp of the Bible's teaching. The aim of this prestigious dictionary is to integrate the various biblical books and themes into the overarching story of the Scriptures. The volume embodies three perspectives on biblical theology, which are reflected in its structure.

Dictionary of the Old Testament: Prophets
InterVarsity Press
Exploring the major themes and issues of

the Pentateuch, this encyclopedic work offers authoritative overviews, detailed examinations and new insights from the world of the ancient Near East. Edited by T. Desmond Alexander and David W. Baker.

Eerdmans

Publishing Company
The groundbreaking Dictionary for Theological Interpretation of the Bible (DTIB) introduced readers to key names, theories, and concepts in the field of biblical interpretation. It has been well received by pastors and students, won book awards from Christianity Today and the Catholic Press Association, and was named the ECPA 2006 Christian Book of the Year. Theological Interpretation of the Old Testament features key articles from DTIB, providing readers with a book-by-book theological reading of the Old Testament. The articles are authored by leading scholars, including Daniel I. Block, Tremper Longman III, J. Gordon McConville, Walter

Moberly, Richard Schultz, and Gordon J. Wenham. This handy and affordable text will work particularly well for students in Old Testament/Bible survey courses, pastors, and lay readers.

Theological Dictionary of the Old Testament

InterVarsity Press

Analyzes the meaning of Hebrew terms used in the Old Testament, considering their occurrences in ancient Near Eastern texts

Eerdmans Dictionary of the Bible

InterVarsity Press

The writings of the prophets make up over a quarter of the Old Testament. But perhaps no other portion of the Old Testament is more misunderstood by readers today. For some, prophecy conjures up knotted

enigmas, opaque oracles and terrifying visions of the future. For others it raises expectations of a plotted-out future to be reconstructed from disparate texts. And yet the prophets have imprinted the language of faith and imagination with some of its most sublime visions - nations streaming to Zion, a lion lying with a lamb, and endlessly fruiting trees on the banks of a flowing river. We might view the prophets as stage directors for Israel's unfolding drama of redemption. Drawing inspiration from past acts in that drama and invoking fresh words from its divine author, these prophets speak a language of sinewed poetry, their words and images arresting the

ear and detonating in the mind. For when Yahweh roars from Zion and thunders from Jerusalem, the pastures of the shepherds dry up, the crest of Carmel withers, and the prophetic word buffets those selling the needy for a pair of sandals. The Dictionary of the Old Testament: Prophets is the only reference book of its kind. Not only does it focus exclusively on the prophetic books; it also plumbs their imagery of mountains and wilderness, flora and fauna, temple and Zion. It maps and guides us through topics such as covenant and law, exile and deliverance, forgiveness and repentance, and the Day of the Lord. Here the nature of prophecy

is searched out in its social, historical, literary and psychological dimensions as well as its synchronic spread of textual links and associations. And the formation of the prophetic books into their canonical collection, including the Book of the Twelve, is explored and weighed for its significance. Then too, contemporary approaches such as canonical criticism, conversation analysis, editorial/redaction criticism, feminist interpretation, literary approaches and rhetorical criticism are summed up and assayed. Even the afterlife of these great texts is explored in articles on the history of interpretation as well as on their impact

in the New Testament. *Dictionary of the Old Testament: Historical Books* Inter-Varsity Press
 Volume XVI concludes the monumental, critically acclaimed Theological Dictionary of the Old Testament with an Aramaic dictionary. This latest and last TDOT volume incorporates nearly the complete lexicon of Biblical Aramaic as well as a major portion of the theologically, culturally, and historically relevant terms in other ancient Aramaic writings. Each article provides information on the term's meaning and usage, is fully annotated, and contains a bibliography with cross-references to the entire TDOT series. Further enhancing this volume

are an introductory overview of the history of Aramaic and a comparative grammatical outline of ancient Aramaic at the end of the book.

B. Eerdmans Publishing The Exegesis Quick-Reference Tool Every Pastor, Teacher, Student, and Scholar Needs The Concise New International Dictionary of New Testament Theology and Exegesis (CNIDNTTE) by Christopher A.

Beetham is a significant resource for those looking for a quick-reference guide to aid in exegesis and interpretation. It retains all the essentials of the monumental and magisterial New International Dictionary of New Testament Theology and Exegesis edited by Moises Silva, bringing together its most important elements into one accessible volume. This reference includes the most vital, relevant information needed to delve deep into the study of the Greek words used in Scripture for study of the New Testament--its texts and theology. This volume offers a wealth of background and information on the meaning of Greek words in the New

Testament, as well as related usage in classical Greek sources, the Greek Old Testament (Septuagint), and extrabiblical Second Temple Jewish literature. This significant tool offers the following features: All the nearly 800 entries covering over 3,000 Greek words found in the full edition are included and presented in the same order and arrangement. Retains approximately 60 percent of the original edition, with the emphasis now on synchronic word study and usage in the Greek Old Testament, extrabiblical Second Temple literature, and especially the New Testament. The unique arrangement according to Greek words and use of English concepts

is retained from the full edition and allows all users to access Greek terms regardless of their level of competence in Greek. This edition retains the significant semantic-domain tool that directs the reader to all the Greek words that have something to do with a particular English word or concept. For example, under the English words "Resurrection," there is a list of four Greek words that are related to that topic. Discussions reflect the latest in modern scholarship. Bibliographies retain essential references to other standard lexicons and theological dictionaries. The Concise New International Dictionary of New Testament Theology and Exegesis

is the ideal tool for pastors, Bible teachers, students, and scholars engaging in exegesis. It is packed with the essential information needed to study the New Testament. *Theological Dictionary of the Old Testament* Wm. B. Eerdmans Publishing Company This multivolume work is still proving to be as fundamental to Old Testament studies as its companion set, the Kittel-Friedrich *Theological Dictionary of the New Testament*, has been to New Testament studies. Such features will help all earnest students of the Bible to avail themselves of the manifold theological insights contained in this monumental work.

Volume XIV Wm. B. Eerdmans Publishing Editors Bill T. Arnold and Hugh G. M. Williamson present more than 160 in-depth articles on the essential historical, literary, theological, interpretive and background topics for studying the historical books of the Old Testament (Joshua, Judges, 1-2 Samuel, 1-2 Kings, 1-2

Chronicles, Ezra, Nehemiah).

Theological Dictionary of the Old Testament: qôš-raqîa' Westminster John Knox Press

The Eerdmans Dictionary of the Bible gathers nearly 5,000 alphabetically ordered articles that thoroughly yet clearly explain all the books, persons, places, and significant terms found in the Bible. The Dictionary also explores the background of each biblical book and related writings and discusses cultural, natural, geographical, and literary phenomena--matters that Bible students at all levels may encounter in reading or discussion. Nearly 600 first-rate Bible authorities have contributed to the Eerdmans Dictionary of

the Bible. Intended as a tool for practical Bible use, this illustrated dictionary reflects recent archaeological discoveries and the breadth of current biblical scholarship, including insights from critical analysis of literary, historical, sociological, and other methodological issues. The editorial team has also incorporated articles that explore and interpret important focuses of biblical theology, text and transmission, Near Eastern archaeology, extrabiblical writings, and pertinent ecclesiastical traditions--all of which help make the Eerdmans Dictionary of the Bible the most comprehensive and up-to-date one-volume Bible dictionary on the

market today.
