The Culture of Print Walter de Gruyter

This Encyclopedia is the first to compile pseudonyms from all over the world, from all ages and occupations in a single work: some 500,000 pseudonyms of roughly 270,000 people are deciphered here. Besides pseudonyms in the narrower sense, initials, nick names, order names, birth and married names etc. are included. The volumes 1 to 9 list persons by their real names in alphabetical order. To make the unequivocal identification of a person easier, year and place of birth and death are provided where available, as are profession, nationality, the pseudonym under which the person was known, and finally, the sources used. The names of professions given in the source material have been translated into English especially for this encyclopaedia. In the

second part, covering the volumes 10 to 16, the pseudonyms are listed alphabetically and the real names provided. Approx. 500,000 pseudonyms of about 270,000 persons First encyclopedia including pseudonyms from all over the world, all times and all occupations Essential research tool for anyone wishing to identify persons and names for his research within one single work

*Dictionnaire genealogique, heraldique, chronologique et historique, contenant l'origine et l'etat actuel des premieres maisons de France, des maisons souveraines & principales de l'Europe; les noms des provinces, villes, terres, &c. erigees en principautes, duches, marquisats, comtes, vicomtes & baronnies; les maisons eteintes qui les ont possedees; celles qui par heritage, alliance, achat, ou donation du Souverain, les possedent aujourd'hui. Les familles nobles du royaume, & le nom & les armes seulement de celles dont les genealogies n'ont pas ete publiees. Par M.D.L.C.D.B. Tome premier [-7., ou 4. vol. du*

'...a lucid and scholarly account of an important and immensely complex subject...Dr. Alpert's command of a broad range of archival material, printed documents and secondary works in six languages is extremely impressive.' - P. Preston, London School of Economics and Political Science It is now twenty years since a study was dedicated to the international aspects of the Spanish Civil War and this new synthesis covering the whole of the era and setting it against major events of the late 1930s is well overdue. Michael Alpert takes full advantage of newly accessible archival sources to disentangle the intricacies of this complex issue.

Tableau historique et politique de l'Europe, depuis 1786 jusqu'en 1796 DigiCat

Written from widely different perspectives, these essays characterize the Great Revolution as the dawn of the modern age, the grand narrative of modernity. The scope of issues under scrutiny is extremely broad, ranging from the analyses of the hotly debated class character of 1789 and the problem of the nation state to the "Cult of the Supreme Being," the emancipation of the Jews, and the cultural heritage of the Revolution. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1990.

*Spink & Son's Monthly Numismatic Circular* Palgrave Macmillan

The leading historians who are the authors of this work offer a highly original account of one of the most important transformations in Western culture: the change brought about by the discovery and development of printing in Europe. Focusing primarily on printed matter other than books, *The Culture of Print* emphasizes the specific and local contexts in which printed materials, such as broadsheets, flysheets, and posters, were used in modern Europe. The authors show that festive, ritual, cultic, civic, and pedagogic uses of print were social activities that involved deciphering texts in a collective way, with those who knew how to read leading those who did not. Only gradually did these collective forms of appropriation give way to a practice of reading--privately, silently, using the eyes alone--that has become common today. This wide-ranging work opens up new historical and methodological perspectives and will become a focal point of debate for historians and sociologists interested in the cultural transformations that accompanied the rise of modern societies. Originally published in 1989. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books

while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The French Revolution and the Birth of Modernity

DigiCat Publishing presents to you this special edition of "The Arts in the Middle Ages and at the Period of the Renaissance" by P. L. Jacob. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.
