CRACKER IS ONE OF THE UNITED STATES ARMY'S MOST VALUABLE WEAPONS: a German shepherd trained to sniff out bombs, traps, and the enemy. The fate of entire platoons rests on her keen sense of smell. She's a Big Deal, and she likes it that way. Sometimes Cracker remembers when she was younger, and her previous owner would feed her hot dogs and let her sleep in his bed. That was nice, too. Rick Hanski is headed to Vietnam. There, he's going to whip the world and prove to his family and his sergeant -- and everyone else who didn't think he was cut out for war -- wrong.

But sometimes Rick can't help but wonder that maybe everyone else is right. Maybe he should have just stayed at home and worked in his dad's hardware store. When Cracker is paired with Rick, she isn't so sure about this new owner. He's going to have to prove himself to her before she's going to prove herself to him. They need to be friends before they can be a team, and they have to be a team if they want to get home alive. Told in part through the uncanny point of view of a German shepherd, Cracker! is an action-packed glimpse into the Vietnam War as seen through the eyes of a dog and her handler. It's an utterly unique powerhouse of a book by the Newbery Medal-winning author of Kira-Kira.

### **AR 700-37 02/22/2013 PACKAGING OF ARMY MATERIEL , Survival Ebooks**

R&L Education  
An exciting factual journey of Sam Nusz's life and survival during World War II that needs to be read by everyone interested in this period of history. Sam takes us for a short journey of his prewar life in South Dakota and concentrates on his experiences during WWII in Europe.

Sam gives us his personnel side of life during this period which was sometimes amazing, sometimes amusing but always about the grim aspects of war. Included in his book are many personal photos taken by Sam and his friends. Sam's intentions of this book are that the brutality of this war and events leading to it are never experienced by our children again.

Red Teaming is a revolutionary new way to make critical and contrarian thinking part of the planning process of any organization, allowing companies to stress-test their strategies, flush out hidden threats and missed opportunities and avoid being sandbagged by competitors. Today, most — if not all — established corporations live with the gnawing fear that there is another Uber out there just waiting to disrupt their industry. Red Teaming is the cure for this anxiety. The term was coined by the U.S. Army, which has developed the most comprehensive and effective approach to Red Teaming in the world today in response to the debacles of its recent wars in Iraq and Afghanistan. However, the roots of Red Teaming run very deep: to the Roman Catholic Church's "Office of the Devil's Advocate," to the Kriegsspiel of the Prussian General Staff and to the secretive AMAN organization, Israel's Directorate of Military Intelligence. In this book, author Bryce Hoffman shows business how to use the same techniques to better plan for the uncertainties of today's rapidly changing economy. Red Teaming is both a set of analytical tools and a mindset. It is designed to overcome the mental blind spots and cognitive biases that all of us fall victim to when we try to address complex problems. The same heuristics that allow us to successfully navigate life and business also cause us to miss or ignore important information. It is a simple and provable fact that we do not know what we do not know. The good news is that, through Red Teaming, we can find out. In this book, Hoffman shows how the most innovative and disruptive

companies, such as Google and Toyota, already employ some of these techniques organically. He also shows how many high-profile business failures, including those that sparked the Great Recession, could easily have been averted by using these approaches. Most importantly, he teaches leaders how to make Red Teaming part of their own planning process, laying the foundation for a movement that will change the way America does business.

The Medical Department of the United States Army in World War II. Simon and Schuster

This unique collection is comprised of the best U.S. military rifle & sniper handbooks. It provides guidance for the training on different types of rifles (M 24 Sniper Weapon System, M16A1, M16A2/3, M16A4 & M4 Carbine) and all other necessary information needed to become an exceptional rifleman. On Point is a study of Operation IRAQI FREEDOM (OIF) as soon after the fact as feasible. The Army leadership chartered this effort in a message to the major commands on 30 April 2003. In his guidance, Army Chief of Staff General Eric K. Shinseki directed "a quick, thorough review that looks at the US Army's performance, assesses the role it played in the joint and coalition team, and captures the strategic, operational, and tactical lessons that should be disseminated and applied in future fights." For those of us in the Operation IRAQI FREEDOM Study Group (OIF-SG), this translated into three separate products. A "quick look" lessons-learned briefing produced in July, less than 30 days after returning from the theater. On Point-this work-is the second product and was largely completed by mid-August 2003. Finally, the most significant product is the archive of 119,000 documents, some 2,300 interviews and 69,000 photos archived with the support and assistance of the Combined Arms Research Library at Fort Leavenworth, Kansas.

When Charlie's brother, Joe, is called up to fight in World War II, he promises to write letters to ten-year-old Charlie as often as he can. It won't make up for not

being there to help Charlie out with the neighborhood bullies, but it's all Joe can do. Life is tough for a soldier, and Joe tells Charlie all about it, from long hikes in endless rain and mud to the stray dog his company adopts. But when Joe is sent on a secret mission with the one soldier he can't stand, he will have to face risks that place their mission -- and their lives -- in grave danger. Charlie knew his brother was strong, but he will discover that Joe is more of a hero than he lets on. Will Joe's letters give Charlie the strength to stand up for himself and be brave, too?

Does the identification number 60 indicate a toxic substance or a flammable solid, in the molten state at an elevated temperature? Does the identification number 1035 indicate ethane or butane? What is the difference between natural gas transmission pipelines and natural gas distribution pipelines? If you came upon an overturned truck on the highway that was leaking, would you be able to identify if it was hazardous and know what steps to take? Questions like these and more are answered in the Emergency Response Guidebook. Learn how to identify symbols for and vehicles carrying toxic, flammable, explosive, radioactive, or otherwise harmful substances and how to respond once an incident involving those substances has been identified. Always be prepared in situations that are unfamiliar and dangerous and know how to rectify them. Keeping this guide around at all times will ensure that, if you were to come upon a transportation situation involving hazardous substances or dangerous goods, you will be able to help keep others and yourself out of

danger. With color-coded pages for quick and easy reference, this is the official manual used by first responders in the United States and Canada for transportation incidents involving dangerous goods or hazardous materials.

Here, Carol Mullen uncovers vital information about the needs of the nation's schools that can be reflected in program content and policy reform. She contends that in today's education climate there exists an urgent call for university faculty to take responsibility for reforming university preparation programs. Otherwise, the least effective of these programs could be eliminated, as has already occurred in North Carolina. This book should help principal preparation programs that are behind the times to move forward. Such programs can thus be expected to be aligned not only with the expectations of universities, policymaking bodies, and the public, but also with school districts and practicing school leaders.
