Revival After the Great War Capstone

A revisionist exploration of identities and interactions in the 'Punic World' of the western Mediterranean.

The Romance Languages Random House Australia

This study of the emergence of Romance and its crystallization into French, Spanish, Italian, Rumanian, etc. elucidates not only the creation of the modern languages but also the decline of Latin. The author provides as a setting the world of 'Vulgar Latin', a Roman world where the Latin tongue showed all the anarchical tendencies of popular speech and to which the mingling peoples in the Empire brought new and linguistically exotic elements. He explains how, from the fifth century to the ninth, the forces which procured Rome's political weakening at the same time accelerated the disintegration and differentiation of the Latin vernacular, though enriching it with contributions of their own--Germanic, Arabic, and Slavonic.

During the Age of Revolution, Paris came alive with wildly popular virtuoso performances. Whether the performers were musicians or chefs, chess players or detectives, these virtuosos transformed their technical skills into dramatic spectacles, presenting the

marvelous and the outré for spellbound audiences. Who these characters were, how they attained their fame, and why Paris became the focal point of their activities is the subject of Paul Metzner's absorbing study. Covering the years 1775 to 1850, Metzner describes the careers of a handful of virtuosos: chess masters who played several games at once; a chef who sculpted hundreds of four-foot-tall architectural fantasies in sugar; the first police detective, whose memoirs inspired the invention of the detective story; a violinist who played whole pieces on a single string. He examines these virtuosos as a group in the context of the society that was then the capital of Western civilization. Awe and exhilaration--along with heartbreak and mordant wit--abound in *Lolita*, Nabokov's most famous and controversial novel, which tells the story of the aging Humbert Humbert's obsessive, devouring, and doomed passion for the nymphet Dolores Haze. *Lolita* is also the story of a hypercivilized European colliding with the cheerful barbarism of postwar America. Most of all, it is a meditation on love--love as outrage and hallucination, madness and transformation.

The challenges of post-war recovery from social and political reform to architectural design in the months and years immediately following the First World War, the many (European) countries that had formed its battleground were confronted with daunting challenges. These challenges varied according to the countries' earlier role and degree of involvement in the war but were without exception enormous. The contributors to this book analyse how this was not only a matter of rebuilding ravaged cities and destroyed infrastructure, but also of repairing people's damaged bodies and upended daily lives, and rethinking and reforming societal, economic and political structures. These processes took place against the backdrop of mass mourning and remembrance, political violence and economic crisis. At the same time, the post-war tabula rasa offered many opportunities for innovation in various areas of society, from social and political reform to architectural design. The wide scope of post-war recovery and revival is reflected in the different sections of this book: rebuild, remember, repair, and reform. It offers insights into post-war revival in Western European countries such as Belgium, France, the United Kingdom, Germany, Portugal, Spain, and Italy, as well as into how their efforts were perceived outside of Europe, for instance in Argentina and the United States.

"I was for a very long time passionately in love with her, as I'm sure she's guessed. Every male in the world, and a number of females also were, and we all still are." —David Bowie "Françoise was the ultimate pin-up of most hip bedroom walls, and I know for a fact that Brian Jones and Mick Jagger, John Lennon, Paul McCartney, and many other pop stars were desperately interested in having Françoise Hardy become their girlfriend in some way." —Malcolm McLaren Françoise Hardy is best known in Europe for originating the famed "Yé-Yé" sound in pop music which began a cultural scene in the early 1960s. Her teenage success grew as she became a much-photographed fashion model and actress. Adored for her shy beauty and emotional songwriting, she sang hit songs in French, Italian, and German. In *The Despair of Monkeys and Other Trifles*, she bares her soul and tells the truth of her relationships, fears, and triumphs as well as the hard-won wisdom carved from a life well-lived. This unusually-titled memoir has sold millions of copies in its French, German,

Italian, and Spanish editions in recent years. This first English-language release is expertly translated by Jon E. Graham. The book contains dozens of images in addition to Hardy's intimate recollections of her upbringing and career. Françoise Hardy, an accomplished songwriter and lyricist also collaborated with accomplished songwriters such as Leonard Cohen, Serge Gainsbourg, and Patrick Modiano. Both her early pop work and later material in a complex and mature style helped generate a dedicated cult following. Both her husband, Jacques Dutronc, and son, Thomas Dutronc, are respected musicians in France.

The collection of essays presented here examines the links forged through the ages between the realm of law and the expressions of the humanistic culture. We collected thirty-five essays by international scholars and organized them into sections of ten chapters based around ten different themes. Two main perspectives emerged: in some articles the topic relates to the conventional approach of law and/in humanities (iconography, literature, architecture, cinema, music), other articles are about more traditional connections between fields of knowledge (in particular, philosophy, political experiences, didactics). We decided not to confine authors to one particular methodological framework, preferring instead to promote historiographical openness. Our intention was to create a patchwork of different approaches, with each article drawing on a different area of culture to provide a new angle to the history being told. The variety of authorial nationalities gives the collection a multicultural character and the breadth of the chronological period it deals with from antiquity to the contemporary age adds further depth of insight. As the element that unites the collection

is historiographical interpretation, we wanted to bring to the fore its historical depth. Thus for every chapter we organized the articles in chronological order according to the historical context covered. Looking at the final outcome, it was interesting to learn that more often than not the connection between law and humanities is not simply a relation between a specific branch of the law and a single field of the humanities, but rather a relation that could be developed in many directions at once, involving different fields of knowledge, and of arts and popular culture. We are grateful to Luigi Lacchè for his contribution to this collection. His essay outlines the coordinates of the law and humanities world, laying out the instruments necessary for an understanding of the origins of a complex methodology and the different approaches that exist within it. This project is the result of discussions that took place during the XXIII Forum of the Association of Young Legal Historians held in Naples in the spring of 2017. The book was made possible thanks to the advice and support of Cristina Vano. The Editors

Language standardization is an ongoing process based on the notions of linguistic correctness and models. This manual contains thirty-six chapters that deal with the theories of linguistic norms and give a comprehensive up-to-date description and analysis of the standardization processes in the Romance languages. The first section presents the essential approaches to the concept of linguistic norm ranging from antiquity to the present, and includes individual chapters on the notion of linguistic norms and correctness in classical grammar and rhetoric, in the Prague School, in the linguistic theory of Eugenio Coseriu, in sociolinguistics as well as in pragmatics, cognitive and discourse linguistics. The second section focuses on the application of these

notions with respect to the Romance languages. It examines in detail the normative grammar and the normative dictionary as the reference tools for language codification and modernization of those languages that have a long and well-established written tradition, i.e. Romanian, Italian, French, Catalan, Spanish, and Portuguese. Furthermore, the volume offers a discussion of the key issues regarding the standardization of the 'minor' Romance languages as well as Creoles.
