This book advances an integrative approach to understanding the phenomenon of psychosocial maturation. Through a rigorous, dialectically-informed interpretation of psychoanalytic and humanistic-existential-phenomenological sources, Mufid James Hannush distils thirty essential markers of maturity. The dialectical approach is described as a process whereby lived, affect-and-value laden polar meanings are transformed, through deep insight, into complementary and integrative meta-meanings. The author demonstrates how responding to the call of maturation can be viewed as a life project that serves the ultimate purpose of living a balanced life. The book will appeal to students and scholars of human development, psychotherapy,

social work, philosophy, and existential, humanistic, and phenomenological psychology.

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including

feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Climate change and its impact on society is considered one of the most important factors in understanding social and economic variables. Changing patterns in ecosystems, populations, and economic sectors form a perfect system for the 2030 Sustainable Development Goals. In order to understand how these goals can be addressed, further study on the current tactics and initiatives

is required. Climate Change, World Consequences, and the Sustainable Development Goals for 2030 discusses the impact of climate change on the environment and the prospects for citizens, cities, and industry. The book also conducts an analysis of climate change to understand how society is coping and its effect on economic sectors. Moreover, it examines current strategies for achieving the Sustainable Development Goals and mitigating the negative impact on the environment. Covering a range of topics such as energy, global warming, and smart cities, this reference work is ideal for policymakers, environmentalists, government officials, practitioners, academicians, scholars, researchers, instructors, and students.

Named a best book of the year by Entertainment Weekly, Time, and The Chicago Tribune, and named a notable book by The New York Times Book Review and The Washington Post "Remarkable . . . With this book [Wolitzer] has surpassed herself."—The New York Times Book Review "A victory . . . The Interestings secures Wolitzer's place among the best novelists of her generation. . . . She's every bit as literary as Franzen or Eugenides. But the very human moments in her work hit you harder than the big ideas. This isn't women's fiction. It's everyone's."—Entertainment Weekly (A) From Meg Wolitzer, the New York Times–bestselling author of *The Female Persuasion*, a novel that has been called "genius" (The Chicago Tribune), "wonderful" (Vanity Fair), "ambitious" (San Francisco Chronicle), and a "page-turner" (Cosmopolitan). The summer that Nixon resigns, six teenagers at a summer camp for the arts become inseparable. Decades later

the bond remains powerful, but so much else has changed. In *The Interestings*, Wolitzer follows these characters from the height of youth through middle age, as their talents, fortunes, and degrees of satisfaction diverge. The kind of creativity that is rewarded at age fifteen is not always enough to propel someone through life at age thirty; not everyone can sustain, in adulthood, what seemed so special in adolescence. Jules Jacobson, an aspiring comic actress, eventually resigns herself to a more practical occupation and lifestyle. Her friend Jonah, a gifted musician, stops playing the guitar and becomes an engineer. But Ethan and Ash, Jules's now-married best friends, become shockingly successful—true to their initial artistic dreams, with the wealth and access that allow those dreams to keep expanding. The friendships endure and even prosper, but also underscore the differences in their fates, in what their talents have become and the shapes their lives have taken. Wide in scope, ambitious, and populated by complex characters who come together and apart in a changing New York City, *The Interestings* explores the meaning of talent; the nature of envy; the roles of class, art, money, and power; and how all of it can shift and tilt precipitously over the course of a friendship and a life.

An irreverent, yet powerful exploration of race relations by the New York Times-bestselling author of *The Chris Farley Show* Frank, funny, and incisive, *Some of My Best Friends Are Black* offers a profoundly honest portrait of race in America. In a book that is part reportage, part history, part social commentary, Tanner Colby explores why the civil rights movement ultimately produced such little true integration in schools, neighborhoods, offices, and churches—the very places where social change needed to unfold. Weaving together the personal, intimate stories of everyday people—black and white—Colby reveals the strange, sordid history of what was supposed to be the end of Jim Crow, but turned out to be more of the same with no name. He shows us how far we have come in our journey to leave mistrust and anger behind—and how far all of us have left to go.

How to make city cycling--the most sustainable form of urban transportation--safe, practical, and convenient for all cyclists. Cycling is the most sustainable mode of urban transportation, practical for most short- and medium-distance trips--commuting to and from work or school, shopping, visiting friends, going to the doctor's office. It's good for your health, spares the environment a trip's worth of auto emissions, and is economical for both public and personal budgets. Cycling, with all its benefits, should not be reserved for the fit, the spandex-clad, and the daring. Cycling for Sustainable Cities shows how to make city cycling safe, practical, and convenient for all cyclists.

This comprehensive volume was put together in response to the growing amount of research on tourism in Asia and an increasing number of authors from Asian countries. It concentrates on two aspects of Asian Tourism: first, the Asian tourists themselves, and second, economic development and tourism in the Asian region. The first part of the collection focuses on three areas: the motivations of different types of Asian tourist; the characteristics and behaviour of particular Asian tourist segments; and, finally,

an analysis of specific research issues. The second part of the book then goes on to explore the governance and organisation of tourism in the Asian region, and the nature of Asian growth and competitiveness as it relates to tourism. The articles in this book were originally published in the journal *Current Issues in Tourism*.

Travel, Tourism and Identity addresses the psychological and social adjustments that occur when people make contact with others outside their social, cultural, or linguistic groups. Whether such contact is the result of tourism, seeking exile, or relocating

abroad, the volume's contributors demonstrate how one's identity, cultural assumptions, and worldview can be brought into question. In some cases, the traveller finds that bridging the social and cultural gap between himself and the new society is fairly easy. In other cases, the traveller discovers that reorienting himself requires absorbing a new cultural history and traditions. The contributors argue that making these adjustments will surely enhance the traveller's or tourist's experience; otherwise the traveller or tourist will be at risk of becoming a marginalized figure, one disconnected from the society that surrounds him. This latest volume in the Culture & Civilization series features a collection of essays on travel and tourism. The essays cover a range of topics from historical travels to modern social identities. They discuss ancient travels, contemporary travels in Europe, Africa and sustainable eco-tourism, and the politics of tourism. Essays also address experiences of Grenada's "Spice Island" identity, and the effects of globalization and migrations on personal identity.

The ability to see deeply affects how human beings perceive and interpret the world around them. For most people, eyesight is part of everyday communication, social activities, educational and professional pursuits, the care of others, and the maintenance of personal health, independence, and mobility. Functioning eyes and vision system can reduce an adult's risk of chronic health conditions, death, falls and injuries, social isolation, depression, and other psychological problems. In children, properly maintained eye and vision health contributes to

a child's social development, academic achievement, and better health across the lifespan. The public generally recognizes its reliance on sight and fears its loss, but emphasis on eye and vision health, in general, has not been integrated into daily life to the same extent as other health promotion activities, such as teeth brushing; hand washing; physical and mental exercise; and various injury prevention behaviors. A larger population health approach is needed to engage a wide range of stakeholders in coordinated efforts that can sustain the scope of behavior change. The shaping of socioeconomic environments can eventually lead to new social norms that promote eye and vision health. Making Eye Health a Population Health Imperative: Vision for Tomorrow proposes a new population-centered framework to guide action and coordination among various, and sometimes competing, stakeholders in pursuit of improved eye and vision health and health equity in the United States. Building on the momentum of previous public health efforts, this report also introduces a model for action that highlights different levels of prevention activities across a range of stakeholders and provides specific examples of how population health strategies can be translated into cohesive areas for action at federal, state, and local levels.

This haunting story of a son's quest to understand the mystery of his father's death is "searing and unforgettable...memoir writing at its best" (San Francisco Chronicle)—a "powerfully affecting" (O, The Oprah Magazine) portrait of a family and its legacy of secrets. "Family? Secrets? Sometimes I think they are the same thing." So writes Michael Hainey in this unforgettable story of a

son's search to discover the decades-old truth about his father's mysterious death. Hainey was a boy of six when his father, a bright and shining star in the glamorous, hard-living world of 1960s Chicago newspapers, died under mysterious circumstances. His tragic absence left behind not only a young widow and two small sons but questions about family and truth that would obsess Michael for decades. Years later, Michael undertakes a risky journey to uncover the true story about what happened to his father. Prodding reluctant relatives and working through a network of his father's old colleagues, Michael begins to reconcile the father he lost with the one he comes to know. At the heart of his quest is his mother, a woman of courage and tenacity—and a steely determination to press on with her life. A universal story of love and loss and the resilience of family in the face of hardship, *After Visiting Friends* is the account of a son who goes searching for his father, and in the journey discovers new love and admiration for his mother.

Mazierska presents a cultural history of popular Viennese electronic music from 1990 to 2015, from the perspectives of production, scene and national and international reception. To illustrate this history in depth, a number of case studies of the most successful and distinguished musicians are explored, such as Kruder and Dorfmeister, Patrick Pulsinger, Tosca, Electric Indigo and Sofa Surfers. The author draws on research about electronic music, the relationship between music and the urban environment, the history of Austria and Vienna, music scenes and fandom, the digital shift , stardom in popular music (especially electronic music), as well as theories of postmodernism.
