Dancing the

World Smaller examines international dance performances in New York City in the 1940s as sites in which dance artists and audiences contested what it meant to practice globalism in mid-twentieth-century America. During and after the Second World War, modern dance and ballet thrived in New York City, a fertile cosmopolitan environment in which dance was celebrated as an emblem of

American artistic and cultural dominance. In the ensuing Cold War years, American choreographers and companies were among those the U.S. government sent abroad to serve as ambassadors of American cultural values and to extend the nation's geo-political reach. Less-known is that international dance performance, or what was then-called "ethnic" or "ethnologic" dance,

enjoyed strong support among audiences in the city and across the nation as well. Produced in non-traditional dance venues, such as the American Museum of Natural History, the Ethnologic Dance Center, and Carnegie Hall, these performances elevated dance as an intercultural bridge across human differences and dance artists as transcultural interlocutors. Dancing the World Smaller

draws on extensive archival resources, as well as critical and historical studies of race and ethnicity in the U.S., to uncover a hidden history of globalism in American dance and to see artists such as La Meri, Ruth St. Denis, Asadata Dafora, Pearl Primus, José Limón, Ram Gopal, and Charles Weidman in new light. Debates about how to practice globalism in dance proxied larger cultural

struggles over how to reconcile the nation's new role as a global superpower. In dance as in cultural politics, Americans labored over how to realize diversity while honoring difference and manage dueling impulses toward globalism, on the one hand, and isolationism, on the other. *Dancers and Dogs* Black Dog & Leventhal The contributions gathered

together in this volume analyse the link that humankind establishes with nature, examining the way in which a dialogue has been initiated between these two worlds and how it has evolved. From a geographical point of view, the text takes the reader to Africa, America, Asia and Europe via Brazil, Canada, China, Ethiopia, France, Somalia, Switzerland, Tibet, Tunisia, Ukraine, and the United

States, providing a meeting ground between plants and humanity in different dimensions. *Not For Tourists Guide to Chicago 2019* Routledge Travel through time with the maestros as they explore the amazing history of timekeeping! Did you know that there is more than one calendar? While the most commonly used calendar was on the year 2000, the Jewish

calendar said it was the year 5760, while the Muslim calendar said 1420 and the Chinese calendar said 4698. Why do these differences exist? How did ancient civilizations keep track of time? When and how were clocks first invented? Find answers to all these questions and more in this incredible trip through history.

"Musical theatre dance is an ever-changing, evolving dance form, egalitarian in its embrace of any and all dance genres. It is a living, transforming art developed by exceptional dance artists and requiring dramaturgical understanding , character analysis, knowledge of history, art, design and most importantly an extensive knowledge of dance both intellectual and

embodied. Its ghettoization within criticism and scholarship as a throw-away dance form, undeserving of analysis: derivative, cliché ridden, titillating and predictable, the ugly stepsister of both theatre and dance, belies and ignores the historic role it has had in musicals as an expressive form equal to book, music and lyric. The standard adage, "when you can't speak anymore sing, when you

can't sing anymore dance" expresses its importance in musical theatre as the ultimate form of heightened emotional, visceral and intellectual expression. Through in-depth analysis author Liza Gennaro examines Broadway choreography through the lens of dance studies, script analysis, movement research and dramaturgical inquiry offering a close examination of a dance

form that has heretofore received only the most superficial interrogation. This book reveals the choreographic systems of some of Broadway's most influential dance-makers including George Balanchine, Agnes de Mille, Jerome Robbins, Katherine Dunham, Bob Fosse, Savion Glover, Sergio Trujillo, Steven Hoggett and Camille Brown. Making Broadway Dance is

essential reading for theatre and dance scholars, students, practitioners and Broadway fans"--

This volume explores the history of dance on the historically black college and university (HBCU) campus, casting a first

light on the historical practices and current state of college dance program practice in HBCUs. The author addresses how HBCU dance programs developed their institutional visions and missions in a manner that offers students an experience of American higher education in dance, while honoring how the African diaspora persists in and through these

experiences. Chapters illustrate how both Western and African diaspora dances have persisted, integrated through curriculum and practice, and present a model for culturally inclusive histories, traditions, and practices that reflect Western and African diasporas in ongoing dialogue and negotiation on the HBCU campus today. *Chase's Calendar of Events 2022* Fodor's Travel

The mass production and diversification of media have accelerated the development of popular culture. This has started a new trend in consumerism of desiring new consumption objects and devaluing those consumption objects once acquired, thus creating a constant demand for new items. Pop culture now canalizes consumerism both with advertising

and the marketing of consumerist lifestyles, which are disseminated in the mass media. The Handbook of Research on Consumption, Media, and Popular Culture in the Global Age discusses interdisciplinary perspectives on media influence and consumer impacts in a globalizing world due to modern communication technology. Featuring research on topics such as consumer culture,

communication ethics, and social media, this book is ideally designed for managers, marketers, researchers, academicians, and students. *The Story of Clocks and Calendars* Literatureslight Publishing Drawing on a range of methodologies, editors George D. Chrystides and Stephen E. Gregg shift attention from normative textual and doctrinal matters to issues of materiality and everyday

life in Christianity. This handbook is structured in four parts, which include coverage of the following aspects of Christianity: sacred space and objects, cyber-Christianity, food, prayer, education, family life, fundamentalism and sexuality. In addition, issues of gender, race and ethnicity are treated throughout. The international team of contributors provide in-depth analysis

that highlight the current state of academic study in the field and explores areas in which future research might develop. Clearly organised to help users quickly locate key information and analysis, the book includes an A to Z of key terms, extensive guides to further resources, a comprehensive bibliography and a chronology of landmark

events, making it a unique resource to upper-level students and researchers. Criticizing Photographs Bloomsbury Publishing Since 1957, Chase's Calendar of Events lists everything worth knowing and celebrating for each day of the year: 12,500 holidays, historical milestones, famous birthdays, festivals, sporting events and much more. "The Oxford

English Dictionary of holidays."-- NPR's Planet Money. **Chase's Calendar of Events 2021** Rowman & Littlefield Eanger Irving Couse (1866-1936) showed remarkable promise as a young art student. His lifelong interest in Native American cultures also started at an early age, inspired by encounters with Chippewa Indians living near his hometown, Saginaw,

Michigan. After studying in Europe, Couse began spending summers in New Mexico, where in 1915 he helped found the famous Taos Society of Artists, serving as its first president and playing a major role in its success. This richly illustrated volume, featuring full-color reproductions of his artwork, is the first scholarly exploration of Couse's noteworthy life and artistic

achievements. Drawing on extensive research, Virginia Couse Leavitt gives an intimate account of Couse's experiences, including his early struggles as an art student in the United States and abroad, his study of Native Americans, his winter home and studio in New York City, and his life in New Mexico after he relocated to Taos. In examining Couse's role as one of the original six

founders of the Taos Society of Artists, the author provides new information about the art colony's early meetings, original members, and first exhibitions. As a scholar of art history, Leavitt has spent decades researching her subject, who also happens to be her grandfather. Her unique access to the Couse family archives has allowed her to mine correspondenc

photographs, sketchbooks, and memorabilia, all of which add fresh insight into the American art scene in the early 1900s. Of particular interest is the correspondence of Couse's wife, Virginia Walker, an art student in Paris when the couple first met. Her letters home to her family in Washington State offer a vivid picture of her husband's student life in Paris, where Couse studied under the

famous painter William Bouguereau at the Académie Julian. Whereas many artists of the early twentieth century pursued a radically modern style, Couse held true to his formal academic training throughout his career. He gained renown for his paintings of southwestern landscapes and his respectful portraits of Native peoples. Through his

depictions of the domestic and spiritual lives of Pueblo Indians, Couse helped mitigate the prejudices toward Native Americans that persisted during this era. Dance Theatre of Harlem Bloomsbury Publishing Emphasizing the understanding of images and their influences on how they affect our attitudes, beliefs, and actions, this fully updated sixth edition offers consequential

ways of looking at images from the perspectives of photographers, critics, theoreticians, historians, curators, and editors. It invites informed conversations about meanings and implications of images, providing multiple and sometimes conflicting answers to questions such as: What are photographs? Should they be called art? Are they ethical? What

are their implications for self, society, and the world? From showing how critics verbalize what they see in images and how they persuade us to see similarly, to dealing with what different photographs might mean, the book posits that some interpretations

are better than others and explains how to deliberate among competing interpretations . It looks at how the worth of photographs is judged aesthetically and socially, offering samples and practical considerations for both studio critiques for artists and professional

criticism for public audiences. This book is a clear and accessible guide for students of art history, photography and criticism, as well as anyone interested in carefully looking at and talking about photographs and their effects on the world in which we live.
