Fiscal Federalism and Democratic Governance in Nigeria

Academic Conferences and publishing limited
In June 2010, South Africa is the platform for the biggest event that has ever taken place on the African continent: the football World Cup. In the run-up to the World Cup and during the event, Africa will be centre

stage for a while instead of being forgotten. This book follows a football-mad continent on the road to this World Cup. It is a book of stories, primarily by African journalists and photographers, about the love of football. It shows Africa as we rarely see it: as a continent bubbling over with talent, ambition and opportunities. As well as highlighting the love of football itself, the book also

pays a close attention to the social significance of football in Africa. Sporting successes create a feeling of dignity and pride in people, and the passion for football can bind them together, even in wartime. You will meet football-mad presidents, read about how the great Ethiopian athlete Haile Gebrselassie loves the game, the roles that Didier Drogba and George Weah played

in bringing peace to the Ivory Coast and Liberia, and how young talents at a Ghanaian football academy are preparing for an international sporting career. Stars such as Michael Essien and Salomon Kalou speak out too, of course. The book also offers a perspective on the African style of play, reconstructs historic footballing events and above all shows the strength of a

continent that is on the way to one of the high points in its history. *The Complete Illustrated Guide to Gambling* Oxford University Press "978-88-3324-087-9" Passi di: "MATCH FIXING". iBooks. Who is behind match fixing? How is it done, and to which aim? In 2015 we wrote for Minerva Edizioni *Game Over: a report* targeted at practitioners, and more specifically at investigators. Since we did

not want the book to be too ponderous, we provided a succinct description of a few topics that might have been interesting reading material even to "non-professionals". These topics are dealt in depth in this volume: the history of match fixing, odd anecdotes and current state of affairs, the profile of its main characters and the explanation of the mechanisms (and complex

motives) behind the swindle as well as the role played by the mafia. You will not find any footnote: instead, the bibliography, at the end of the book, will provide you with book references as well as internet links, all relevant and interesting, although some of them, in our opinion, are a “must” for those who really wish to acquire a deep knowledge of the topic. This is why we highly

recommend them to you. The Fix by Declan Hill (2007) is a comprehensive book on the birth of modern match fixing and its close ties to the mafia. In 2014 Brett Forrest published The Big Fix where he recounts the never-ending fight between law enforcement and match fixers. But the real masterpieces on the subject are a book and... a very long judicial document. The book is the

autobiography of one of the most notorious match fixers in the world: Wilson Raj Perumal, Kelong Kings, written by two Italian scholars, Alessandro Righi and Emanuele Piano. The judicial document is the ordinance issued by Cremona judge, Guido Salvini, in the maxi investigation on Scommessopoli that took place a few years ago (no doubt a less casual

reading, yet dramatically concrete): hundreds of pages packed with wiretaps, explanatory notes of criminal mechanisms and charges that brought to its knees, at least for a while, match fixing in the Italian peninsula. The only sources that we left in complete anonymity are those players, who over time have become our friends: they described to us the insider's point of view, the existing dynamics in

the dressing rooms, the problems and weaknesses of the athletes themselves, the ongoing match fixing techniques. At the beginning of this long journey we took their stories with a grain of salt, "perceiving" them as the fruit of their imagination... but this is not the case anymore! In reality football is not the only sport (nor was it the first) where match fixing took place: actually, in recent years other sport

disciplines were targeted by match fixers. In this book we only hint at the story and trends of the swindle outside of football pitches, and yet it is in the world of football that the mafia invests massively its own resources, and where match fixing is not the sole objective of this criminal enterprise. One last remark: this is not a diatribe of a book, and where it was possible to

report an event without mentioning the name of players who were disqualified or investigated, we did so: the only difference between them and many others (just as guilty as they were) lies in the simple fact that they got caught.

Are you aware that Gambling is not a handiwork, not a talent, not a skill, Gambling is a fake potential and Gambling is not for a

Christian? Are you or a loved one battling with a gambling problem? Are you ready to learn how you can get back up when life knocks you down completely due to gambling addiction? Have you really encountered difficulty in overcoming the urge to gamble? Discover the causes, warning signs and symptoms and learn how to stop. Gambling is one of the ploys of the

wicked one to entangle end-time youth with quick money syndrome. This book presents a concise, yet detailed summary of the major lessons I've learned over the last few years fighting and conquering the spirit behind gambling menace. It's a journey that started since the year 2014 when I was in college at Mahatma Gandhi University, India. It is on record that

nearly four in ten Nigerians (36%) gamble regularly, with up to 60 million Nigerians between the ages of 18 and 40 involved in daily sports betting, and they spend an average of 3,000 Naira every day on betting platforms. The current size of the market is estimated to be \$60 million. It is also on record that approximately 10 million people in the U.S. have a gambling problem, so you are not

alone. It's important to understand your motive for gambling and avoid gambling temptations and triggers. The main reason why most people like to gamble is to make quick and easy money. Gambling by nature appeals to greed, and greed doesn't please God. Jesus condemned greed and mentioned it in lists of some very "ugly" sin (Mark 7:21-23). The Bible warns us

that greed is destructive to our Christian lives (Ephesians 5:3). Note that money itself isn't evil, but being overeager to get a lot of it is dangerous. The desires that want to get more of what this world has to offer are actually the kinds of desires we're following when we choose to gamble. Remember, worldliness and Godliness is in enmity. How would you respond to someone

who argues they only do a little gambling (e.g., Bet9ja or other sports betting) for fun, and they don't care if they win? Gambling in any form is highly addictive; for greed has the potential to master us and also to change our priorities from God to self. The whole point of Gambling is winning money; without that goal it has no purpose. It is dangerous to even get a little involved in an activity that can lead

to greed, debt, stealing, lying, and even spiritual ruin. THROUGH THIS BOOK, YOU ARE SURE TO GAIN: ● A better understanding of how to deal with the temptation and overpowering the urge associated with gambling. ● Practical steps on how to stop gambling. ● The ability to develop a positive lifestyle as alternative to gambling ● Knowledge of the dangers of

gambling as a lifestyle of the 21st century youth, the root causes and symptoms, consequences and how to discontinue. I promise that if you follow the step-by-step guidelines stipulated in this book, you will experience a significant improvement in your battle against gambling problem. I am certain of your quick recovery because the approach will surely work for you whether you're a

national or foreigner, teenager, youth or adult, male or female gambler. This book is highly recommended for all especially anyone that have not been involved in gambling before but have the intentions to start gambling someday.

“Show me a gambler and I will show you a loser”. It is useful to all individual.

**The Global
Gambling
Industry** W.

W. Norton & Company
The collection of case studies maps the corporate and financial structures of global gambling companies, the tactics that these companies employ to secure profits, the impact they exert on other industry sectors, as well as perspectives on regulation. The articles in the book cover different geographical areas, gambling formats and perspectives into how the

global gambling industry has emerged, expanded, and how it is maintained and regulated, in order to form a picture of the global political economy of gambling. The chapters are written by leading scholars on gambling law, social sciences and economy. The Editors Dr. Janne Nikkinen is Docent and University Researcher at the University of Helsinki. His research interest

related to gambling spans a range of issues, from regulatory and policy affairs to the prevention of gambling harm. Dr. Virve Marionneau is a Postdoctoral Researcher at the University of Helsinki. Her research focuses on the political economy of gambling, gambling industry structures, regulations, and gambling harms. Dr. Michael Egerer is a University Researcher at the University

of Helsinki. He studies the concept of addiction, gambling and its regulation, and is an expert in qualitative research methods. Chapters [Chapter-No 3.] and [Chapter-No 6] are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com. **MATCH FIXING** Kit Press First Published in 1971. This study is a comparative

investigation of contractual obligations in Ghana and Nigeria. It has often been suggested that the law of civil responsibility in West Africa is the same as the current English law position on the subject. This book sets out to examine the basis of this assumption, an exercise which has never been attempted by any previous writer in West African law. The study has been divided into five major parts.

gambling, in all its forms. The psychology of the dedicated gambler is examined. Over 400 illustrations.

The Nigerian Law Journal Minerva Edizioni First Published in 1980, The Foundations of Nigeria's Financial Infrastructure presents a comprehensive overview of different aspects of Nigeria's financial developments. Divided in five parts this book brings twenty-one chapters

dealing with themes like Nigeria's traditional financial system; fundamental problems of banking in Nigeria; the banking system and the financial market; aspects of public and private sectors' finance; revenue allocation in Nigeria; Nigerian currency system; Nigeria's balance of payments and external liquidities; development in Nigeria's

external assets, and Nigeria and the International Monetary Fund, to showcase the catalytic role of the financial system in economic development. This volume will be useful for scholars and researchers of public finance, finance, economics, political economy, development economics and development studies. *Perspectives on National Economic*

Management and Administration in Nigeria OECD Publishing This comprehensive volume analyzes dual markets for regulated substances and services, and aims to provide a framework for their effective regulation. A “dual market” refers to the existence of both a legal and an illegal market for a regulated product or service (for example, prescription drugs). These regulations exist in various countries for a mix of public health, historical, political and cultural reasons. Allowing the legal market to thrive, while trying to eliminate the illegal market, provides a unique challenge for governments and law enforcement. Broken down into nine main sections, the book studies comparative international policies for regulating these “dual markets” from a historical, legal, and cultural perspective. It includes an analysis of the markets for psychoactive substances that are illegal in most countries (such as marijuana, cocaine, opioids and amphetamines), psychoactive substances which are legal in most countries and where consumption is widespread (such as alcohol and tobacco), and services that are generally regulated or illegal (such

as sports betting, the sex trade, and gambling). For each of these nine types of markets, contributions focus on the relationship between regulation, the emerging illegal market, and the resulting overall access to these services. This work aims to provide a comprehensive framework from a historical, cultural, and comparative international perspective. It will be of interest to researchers in

criminology and criminal justice, particularly with an interest in organized crime, as well as related fields such as sociology, public policy, international relations, and public health.

The Oxford Handbook of Sport and Society

International Monetary Fund
Master's Thesis from the year 2010 in the subject Economics - Economic Cycle and Growth,
grade: M.Phil/PhD,

University of Ibadan,
course: Economis,
language: English,
abstract: This study examined the relationship between tax structure and economic growth in Nigeria using annual data between 1970 to 2007. The motivation is to track the impact of the observed change in the tax structure on economic growth in order to inform policy. Two tax structures namely pre Value Added

Tax (VAT) and post VAT were identified and their impacts evaluated. The empirical analysis was anchored on the endogenous growth theoretical framework which allowed for linking tax structures to growth. Econometric models were then developed to explore the relationship between the identified tax structures and economic growth. The first model present a growth equation with

average tax rate variable, while the second model is where the specific tax variables were included alongside variables in the first model. The third, fourth and fifth models were used to test the robustness of the second model. This was accomplished basically by introducing additional variables. Prior to the empirical estimations, the standard tests of unit root and co-

integration analysis were conducted to ascertain the appropriate estimation procedure and technique(s) to use. The unit root test show that all the variables of the models are stationary at the first difference, while the co-integration analysis indicates that one model out of the five models had no co-integrating relationship, while the rest had co integrating relationships. On the basis of these tests results, the

model for which we found no co-integrating relationship was estimated using the Vector Auto Regression (VAR) technique while the others with co-integrating relationship were estimated via the Error Correction Modeling (ECM) technique. Further to this, the Granger Causality test was also conducted to ascertain the direction of causality among the

variab

Analysis T. C. Wanyanwu
 This edited volume offers

a rich collection of up-to-date research and critical scholarship from various African institutions on incidents of youth violence, intervention and prevention in sub-Saharan Africa. It integrates thinking, evidence, responses, and debates relating to this topic, laying the basis for fresh insights and innovative strategies. The chapters capture a spectrum of pertinent

issues such as economic hardship, lockdowns, sexual and reproductive health, pregnancy, online sexual harassment, xenophobic violence, and micro-aggressions in school contexts, and present guidelines on how countries might learn from successful interventions recently implemented. They explore young people's access to familial and community resources,

state-sponsored initiatives, peer counselling, youth-friendly services, and other relevant structures. Thus, among other things, this volume stimulates further debate on what is driving violence in different African contexts—specifically, how intersectional identities create vulnerabilities to violence—and influences ways of dealing with the issue. This interdisciplinary

and cross-cutting volume serves as a vital resource for experts at universities, in international organisations, civil society groups and intergovernmental organisations who wish to both analyse and take action to address and prevent the type of violence that currently afflicts young people sub-Saharan Africa today. Contractual Obligations in Ghana and Nigeria Routledge

Between the year 2014 to 2016, I was a victim of gambling addiction one of the 12 tricks of the wicked one against the children of God. If Jesus the Son of the Living God can be tempted by Satan, no mortal man is immune to temptation, trials, darts, tricks, schemes, plots and attacks of Satan. Every true Christian all over the world is going through some kind of spiritual, emotional and

physical attack by Satan and his forces because of our faith in God. So, if you have been caught in any of these 12 tricks of the devil, just know that you are not alone. In view of the above, this book is carefully written to help the readers, Christian students and teachers, to unravel Satan's battle plans and discover the outlined victory strategy over him. Through this book, you are sure to

gain: ● Knowledge of how Satan entangles a Soul with emphasis on the P.E.A.I - syndrom: Pride, Envy, Anger and Ignorance. ● Exposition of Satan's major assignment which is to steal, kill, and destroy souls using the 12 Enslavement Tricks in his arsenal. ● Understanding of the six pieces of God's armour also called spiritual protection which are available tools in the hands of the believer

to combat the wiles of the devil. ● 10 spiritually fortified verses to remember as you face the battles of entanglement ahead with victory in mind. All humans have a supernatural enemy whose aim is to use pain and pleasure to make us blind, stupid, and completely miserable forever. The Bible calls him “the devil and Satan, the deceiver of the whole world and accuser of the brethren”

(Revelation 12:9-10), “the ruler of this world” (John 12:31), and “the god of this age” (2 Corinthians 4:4). The aim of this book is to learn how to combat the wiles of the devil. Every Christian must discover how to stay clothed in the armour of God. We must stay immersed in His Word so that we recognize the deception strategy of Satan. And when we realize we have been caught in the

wiles of the devil, we must quickly repent and seek godly accountability. This book has 5 Chapters in total: It is important to learn how Satan entangles a soul, the 12 tricks he uses and the escape plan so that you can become fully armed as a watchman of Christ. Read and save a soul with this book!
Punters: How Paddy Power Bet Billions and Changed Gambling Forever
Routledge

This book explores various aspects of intranational elite football in Africa, drawing on the expertise of notable scholars from across the world. Africa's Elite Football focuses on an area largely ignored by current scholarship on African football, where interest has focused on international migration. In exploring the intranational, the book is written in two parts. The first is a general

focus on the continent, and the second is an examination of country cases. The general focus of the book is on the nature of elite tier leagues, the relationship between politics and football, the media, youth academies, intranational migration and fans. Notably, chapters on topics such as intranational migration present groundbreaking scholarship in this area. Currently, football discourses on

migration focus on international migration of footballers, yet the majority of migration in African football is intranational. Thus, by addressing the intranational, this book brings attention to an area that is underrepresented in the current academic discourse. The second part of the book, which focuses on country cases, covers Botswana, Egypt, Kenya, Nigeria,

Senegal, Zambia and Zimbabwe.

The topics explored in those cases include religiosity, health, women's football, media and management.

The coverage of health-related issues is particularly important given that several books on African football rarely broach such a topic. With its unique

approach to African football, this book will be of interest to scholars and students of sports history, African studies, politics in sports and African sports.
