After a series of missions—some successful, others less so, and most nearly getting everyone killed—the Guardians of the Galaxy are at a breaking point when they crash-land on a strange planet. With no way to repair their ship, the frustrated Guardians go their separate ways, quickly discovering that the planet's inhabitants have never progressed past a medieval stage of development. Quill finds himself a favored member of a powerful duke's court (as well as a favorite of the duke's daughter), and life seems just fine under the circumstances . . . until the duchy comes under attack. When Quill reckons that their foe may be what's keeping the planet's civilization from advancing, he realizes that defeating it—with the Guardians' help—may be their only hope for getting off of that world. . . If he can find his friends in time.
