Over the past 25 years a major shift in political ideology has refocused educational politics from equality issues to issues relating to excellence, accountability, and choice. The No Child Left Behind (NCLB) Act of 2001 reauthorized the Elementary and Secondary Act (ESEA) first passed in 1965. NCLB legislation is a continuation of the educational reform movement for improved academic achievement that began in 1983 with publication of a government report, *A Nation at Risk*, which called for higher standards to prepare students for the 21st century. Reaction to the at-risk report generated many reform initiatives resulting in the assessment, standards and accountability movement today. The organizational structure of the NCLB covers 10 separate titles. This book provides an enhanced understanding of the NCLB major features and suggests resources in the areas of: History of Accountability and Achievement; Adequate Yearly Progress; Highly-Qualified Teachers; Title I; Reading and Early Childhood; School Reform including Charters and Vouchers; Restructuring; School Finance; and High School Reform.

Knowledge updating is a never-ending process and so should be the revision of an effective textbook. The book originally written fifty years ago has, during the intervening period, been revised and reprinted several times. The authors have, however, been thinking, for the last few years that the book needed not only a thorough revision but rather a substantial rewriting. They now take great pleasure in presenting to the readers the twelfth, thoroughly revised and enlarged, Golden Jubilee edition of the book. The subject-matter in the entire book has been re-written in the light of numerous criticisms and suggestions received from the users of the earlier editions in India and abroad. The basis of this revision has been the emergence of new literature on the subject, the constructive feedback from students and teaching fraternity, as well as those changes that have been made in the syllabi and/or the pattern of examination papers of numerous universities.
