This is the story of a Englishman who gave up a job in journalism to spend fourteen years with the controversial Indian mystic Osho, also known as Bhagwan Shree Rajneesh and frequently referred to as 'the sex guru'. His guru was always controversial with his teachings on sex and spirituality, rumours of orgies and because he owned ninety-three Rolls Royces. Early in 1976, Subhuti travelled to India to meet Rajneesh in his ashram in Pune, became initiated as his disciple and immediately began to have mystical experiences, which he attributed to the powerful energy field surrounding the guru. He stayed for six months, participating in the ashram's notorious Encounter Group and other therapies designed to release suppressed emotions and awaken sexual energy. Subhuti would stay to live and work on his master's ashrams for fourteen years, first as his press officer in Pune, India, then as editor of the community's weekly newspaper when Bhagwan and his followers shifted to Oregon, USA, and built a whole new town on the massive Big Muddy Ranch. There Subhuti was a first-hand witness to the scandals and hullabaloo that accompanied the guru, including tales of broken bones in no-holds-barred therapy groups and Tantra groups that encouraged total sexual freedom, and the increasing hostility with the locals which would lead to Bhagwan's attempt to flee America, his arrest and imprisonment. He was on the Oregon Ranch when Rajneesh's secretary, Ma Anand Sheela, plotted against rival cliques within the ashram as well as a range of murderous crimes against state and federal officials which feature in hit Netflix

series Wild Wild Country. Yet, amidst it all, Subhuti could see the profound revolution in spirituality that Bhagwan was creating, leaving a lasting impact on our ideas about society, religion, meditation and personal transformation. According to the author's understanding, it was the controversy itself, plus Bhagwan's refusal to tread the path of a spiritual saint, that became the stepping stone to a new vision of what it means to be a spiritual seeker.

"Dio cerca costantemente di raggiungerti ma tu non glielo permetti: non lasci mai aperte le tue finestre" Osho apre con questo libro la trilogia Unio Mystica, la raccolta dei suoi commenti all'Hadiqa, Il giardino cintato della verità, opera del mistico sufi Hakim Sanai e classico del sufismo. La vicenda di Hakim Sanai, poeta di corte vissuto nel XII secolo, inizia come un romanzo storico: Sanai, al seguito del sultano persiano e del suo esercito, è in viaggio alla conquista dell'India. Passando nei pressi di un giardino, una musica eterea e un canto sublime li obbligano a fermarsi. Incontrano così Lai-Kur, un mistico sufi, noto come un ubriaccone ma di fatto un illuminato. Quell'incontro trasforma Sanai: una trasmissione immediata della fiamma della consapevolezza lo risveglia e lo spinge ad abbandonare il sultano e a viaggiare in solitudine per assorbire quell'"avvento". Il frutto di quell'esperienza fu il poema di cui Osho commenta alcuni brani salienti in queste pagine. "Libri come questi non vengono scritti, nascono; non sono costruiti nella mente dalla mente, vengono

dall'aldilà. Sono un dono": così esordisce Osho in apertura del suo commento. E come un dono, dal nulla, scaturiscono le sue parole, che risvegliano la visione tra le righe, ieri come oggi, permettendo anche a noi, come accadde a Sanai nove secoli fa, di risvegliarci al nostro vero destino.

Paul Horwich presents a bold new interpretation of Wittgenstein's later work. He argues that it is Wittgenstein's radically anti-theoretical metaphilosophy - and not his identification of the meaning of a word with its use - that underpins his discussions of specific issues concerning language, the mind, mathematics, knowledge, art, and religion.

Facebook blues è un tenero e spassoso romanzo sulla (nostra) vita al tempo dei Social. Due amiche: Renata, divorziata, è una fanatica di Facebook, Marta è infelicamente sposata con un marito ormai anziano, che detesta ma non ha il cuore di lasciare.

Proprio a lei però accade qualcosa: il grande amore della sua vita, un americano conosciuto durante il viaggio di nozze e con cui aveva avuto una storia clandestina molto intensa, ricompare in rete dopo vent'anni, durante i quali lei aveva creduto di averlo perso per sempre... Un romanzo che, facendo un'analisi spietata e umoristica del magico mondo dei Social e delle sue nevrosi che possono dare dipendenza, ci parla di ciò che è proprio dell'uomo. Il bisogno di comunicare, di colmare le distanze, l'amicizia e la confidenza, le incomprensioni che possono essere superate, i figli che si abbracciano anche se sono diversi da come ti aspetti, e l'amore, che quando si incontra, non si deve lasciar andare.

Esoteric Psychology - The Seven Rays: The knowledge of the Seven Rays provided by this book will prove of immense value to all who seek to understand human nature, and to achieve enhanced self awareness and integration of personality, in themselves and others. This masterly written and illustrated manual is an absolutely essential starting and reference work for all those who finally respond in this lifetime to their Purpose and Inner Voice! This book emphasises that all is energy and that Man is an energy unit affected from both without and within. It demonstrates that Ray Psychology is essentially practical and shows how the qualities of these energies may be understood and embraced in human behaviour and today's language. It is plain that psychology will play an ever increasing role in the development of new age consciousness. Already today millions of people, who would be regarded as laymen, practise their own psychology in everyday life. This tendency has been boosted by the general interest in astrology. A glimpse into the future will show that the new psychology will be based on many emerging astrological factors. Esoteric psychology takes into account not only hereditary and environment, but draws also upon that massive third factor which is the psychic and spiritual nature of Mankind. The effect of karma, the influence of previous lives, etc., are major contributions to the behaviour of those who seek to tread the path towards spiritual enlightenment. Esoteric Psychology is based on two major precepts. Firstly, there is a cosmic force conveying seven streams of energy into our solar system that affect the nature, behaviour and evolution of all forms within the ring-pass-not of this system. These streams are termed the Seven Rays. Secondly, spiritual qualities emerging

from the immortal component of Man's structure affect his behaviour and modify the contributing factors of his hereditary equipment and the environment into which it is thrust.

This book is addressed to serious Biblical students, Christians who are interested in comparing Eastern spiritual teachings with those of Christianity, and students of spiritual Yoga, otherwise known as Classical Yoga and Tantra, as well as students and practitioners of meditation and other spiritual disciplines. The discoveries of ancient manuscripts, and their analysis by independent critical scholars using scientific methods, provide much insight into the original teachings of Jesus. The sayings of Jesus, circulated orally during the first decades following his crucifixion are probably the most authentic source of his teachings that we have available today. These sayings are limited to a few dozen parables, aphorisms and sharp retorts, which were repeated in the oral tradition for two or three decades before they were eventually recorded by the anonymous writers of the Gospels. Remarkably, what Jesus taught through his parables and sayings exactly parallels the yogic teachings of the Yoga Siddhas. For those seeking to apply the wisdom of these sayings in their own life, the implications are clear. Seek not to know about God; instead, seek to know God through higher states of consciousness.

The Book of Thoth (Egyptian Tarot) Osho Media International Kurt Gödel (1906-1978) was an Austrian-American mathematician, who is best known for his incompleteness

theorems. He was the greatest mathematical logician of the 20th century, with his contributions extending to Einstein's general relativity, as he proved that Einstein's theory allows for time machines. The Gödel incompleteness theorem - the usual formal mathematical systems cannot prove nor disprove all true mathematical sentences - is frequently presented in textbooks as something that happens in the rarefied realms of mathematical logic, and that has nothing to do with the real world. Practice shows the contrary though; one can demonstrate the validity of the phenomenon in various areas, ranging from chaos theory and physics to economics and even ecology. In this lively treatise, based on Chaitin's groundbreaking work and on the da Costa-Doria results in physics, ecology, economics and computer science, the authors show that the Gödel incompleteness phenomenon can directly bear on the practice of science and perhaps on our everyday life. This accessible book gives a new, detailed and elementary explanation of the Gödel incompleteness theorems and presents the Chaitin results and their relation to the da Costa-Doria results, which are given in full, but with no technicalities. Besides theory, the historical report and personal stories about the main character and on this book's writing process, make it appealing leisure reading for those interested in mathematics, logic, physics, philosophy and computer sciences. Wittgenstein's Metaphilosophy Diamond Pocket Books (P) Ltd. It is my contention that the table of intentionality (rationality, mind, thought, language, personality etc.) that features prominently here describes more or less accurately, or at least serves as an heuristic for, how we think and behave, and so it encompasses not merely philosophy and psychology, but everything else (history, literature, mathematics, politics etc.). Note especially that intentionality and rationality as I (along with Searle, Wittgenstein and others) view it, includes both conscious deliberative linguistic System 2 and unconscious automated prelinguistic System 1 actions or reflexes. I provide a critical survey of some of the major findings of two of the most eminent students of behavior of modern times, Ludwig Wittgenstein and John Searle, on the logical structure of intentionality (mind, language, behavior), taking as my starting point Wittgenstein's fundamental discovery -that all truly 'philosophical' problems are the same-confusions about how to use language in a particular context, and so all solutions are the same-looking at how language can be used in the context at issue so that its truth conditions (Conditions of Satisfaction or COS) are clear. The basic problem is that one can say anything but one cannot mean (state clear COS for) any arbitrary utterance and meaning is only possible in a very specific context. I analyze various writings by and about them from the modern perspective of the two systems of thought (popularized as 'thinking fast, thinking slow'), employing a new table of intentionality and new dual systems nomenclature. I show that this is a powerful heuristic for describing behavior. Thus, all behavior is intimately connected if one takes the correct viewpoint. The Phenomenological Illusion (oblivion to our automated System 1) is universal and extends not merely throughout philosophy but throughout life. I am sure that Chomsky, Obama, Zuckerberg and the Pope would be incredulous if told that they suffer from the same problem as Hegel, Husserl and Heidegger, (or that that they differ only in degree from drug and sex addicts in being motivated by stimulation of their frontal cortices by the delivery of dopamine (and over 100 other chemicals) via the ventral tegmentum and the nucleus accumbens), but it's clearly true. While the phenomenologists

only wasted a lot of people's time, they are wasting the earth and their descendant's future.

The Perfect Master: The way of the Sufi Massari Editore

This book describes the philosophy and the use of Aleister Crowley's Thoth Tarot, a deck of Tarot cards designed by Crowley and co-designed and painted by Lady Frieda Harris. The Thoth Tarot has become one of the best-selling and most popular Tarot Decks in the world. It is also one of the most original interpretations of the tarot, incorporating astrological, numerological, Egyptian, and Qabalistic symbolism. While there are many other useful guides to this famous tarot deck, there are no others that explain the deck in its designer's own words. The book is divided into four major parts: * Part One: The Theory Of The Tarot. * Part Two: The Atu (Keys or Trumps). * Part Three: The Court Cards. * Part Four: The Small Cards. Part One is further divided into three chapters; Part Two into two chapters and an appendix; Part Three into one chapter; and Part Four into one chapter. The book includes a list of plates depicting the Tarot cards as seen by Crowley and Harris.

Here is a series of talks and lectures as well as a personal account of the master's spiritual and philosophical development providing specific suggestions and practices for achieving inner knowledge. The purpose of this series, according to Gurdjieff, is to assist the arising - in the mentation and in the feelings of the reader - of a veritable, non-fantastic representation, not of that illusory world which he now perceives, but of the world existing in reality.

Are We Listening to Our Children? Coronet

A comprehensive and in-depth discussion of the human energy centers known as chakras. The book offers a unique understanding of how these centers, also referred to as "subtle bodies" can be identified and experienced, along with how they are related to personal transformation and health. In this volume, Osho gives an overview of the Eastern science of the subtle energy centers in the human body that are sometimes known as "chakras." It is a science that underlies traditional Chinese medicine, Indian Ayurveda, and the practice of kundalini yoga, among other disciplines that recognize the deep connection between mind and body. Osho also shows how these same principles apply to human psychological growth and maturation,

and the evolution of consciousness. Self-help, Spirituality, Psychology, Meditation, Esoteric, New Age, Health, Yoga. The title will especially of interest to the large group of people involved with Yoga, as the book describes in simple terms, using everyday experiences as examples, what underlies the Kundalini Yoga approach to the human energy system. The Chakra Book delivers the 'esoteric science' and understanding in the context of personal growth and transformation.

This innovative and highly praised book describes the visible and palpable anatomy that forms the basis of clinical examination. The first chapter considers the anatomical terms needed for precise description of the parts of the body and movements from the anatomical positions. The remaining chapters are regionally organised and colour photographs demonstrate visible anatomy. Many of the photographs are reproduced with numbered overlays, indicating structures that can be seen, felt, moved or listened to. The surface markings of deeper structures are indicated together with common sites for injection of local anaesthetic, accessing blood vessels, biopsying organs and making incisions. The accompanying text describes the anatomical features of the illustrated structures. Over 250 colour photographs with accompanying line drawings to indicate the position of major structures. The seven regionally organised chapters cover all areas of male and female anatomy. The text is closely aligned with the illustrations and highlights the relevance for the clinical examination of a patient. Includes appropriate radiological images to aid understanding. All line drawings now presented in colour to add clarity and improve the visual interpretation. Includes 20 new illustrations of palpable and visible anatomy. Revised text now more closely tied in with the text and with increasing emphasis on clinical examination of the body.
