This book entitled Electricity & Magnetism covers the syllabi of B.Sc. (Pass & Honours) and Engineering students of various Universities in India, and is written purely in S.I. Units (rationalised MKS system of units) with a complete vector treatment. The mathematical description of the book is based on the methods of vector analysis. Vector analysis provides an efficient short-hand for writing physics and the same time makes it possible to visualise the physical meaning of concepts and laws distinctly and exactly. Hence, the vector treatment becomes necessary.
