THE WRITER'S RESPONSE teaches students not only the basics of paragraph and essay writing—unity, coherence, and support—but also the basics of academic writing, making it a complete source for students preparing for higher-level work. Through a variety of exercises and extensive readings, the text teaches students to read carefully and summarize accurately, to recognize and respond to specific points in the material they have read, to synthesize ideas from several reading selections, and to evaluate and argue about the ideas they have found in their reading material. Although the authors' focus is on writing about reading, they also encourage students to use their personal experiences to develop and support their ideas. This combination results in a text that not only imparts the fundamentals of college-level writing, but also helps each student find his or her own voice—and discover that they do, indeed, have something to say. The Care Act 2014 is arguably the most significant piece of

legislation for social workers who work with adults, since the NHS and Community Care Act 1990. This book presents the information from the act, regulations and statutory guidance in a way that provides social workers with a good understanding of the legislation and how it applies to their role. Making extensive use of case examples that derive from the author's experience as a social worker, the book highlights the circumstances where professional judgment is required and explores issues that need interpretation such as significant impact on wellbeing. It covers the key stages of the 'care and support journey' - first contact, assessment of needs, prevention, consideration of eligibility, charging and financial assessment, care and support planning, and review. In addition, other chapters look at significant issues such as safeguarding and working with NHS colleagues. This book helps to improve the 'legal literacy' of social workers, i.e. the connecting of legal rules with professional priorities and ethical practice. It achieves this by helping social workers to better understand the legal framework within which they make professional judgements, and to apply their expertise in interpreting the law for the benefit of people with care and support needs. This readable and jargon-free book provides: a solid foundation for social work students in developing a critical understanding of the Care Act and its application, help for experienced social workers with developing the critical reflection necessary to enhance their ability to make professional judgements a source of reference which social workers can use to evaluate their local systems, policies and procedures.
